Abstract: Under Section 206(a) of the Clean Air Act (42 U.S.C. 7521), on-highway engine and vehicle manufacturers may not legally introduce their products into US commerce unless EPA has certified that their production complies with applicable emission standards. Per section 207(a), original vehicle manufacturers must warrant that vehicles are free from defects in materials and workmanship that would cause the vehicle not to comply with emission regulations during its useful life. Section 207(a) directs EPA to provide certification to those manufacturers or builders of automotive aftermarket parts that demonstrate that the installation and use of their products will not cause failure of the engine or vehicle to comply with emission standards. An aftermarket part is any part offered for sale for installation in or on a motor vehicle after such vehicle has left the vehicle manufacturer's production line (40 CFR 85.2113(b)). Participation in the aftermarket certification program is voluntary. Aftermarket part manufacturers or builders (manufacturers) electing to participate conduct emission and durability testing as described in 40 CFR part 85, subpart V, and submit data about their products and testing procedures. Any information submitted to the Agency for which a claim of confidentiality is made is safeguarded according to policies set forth in CFR title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2).

Form Numbers: None.

Respondents/affected entities: Manufacturers or builders of automotive aftermarket parts. *Respondent's obligation to respond:* Voluntary.

Estimated number of respondents: 1 (total).

Frequency of response: On occasion.

Total estimated burden: 547 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Notice of Receipt of Petitions for a Waiver of the Renewable Fuel Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received a number of petitions for a waiver of the renewable fuel standards that would apply in 2014. The American Petroleum Institute (API) and the American Fuel & Petrochemical Manufacturers (AFPM) submitted a joint petition to the Administrator, dated August 13, 2013, on behalf of their members requesting a partial waiver of the 2014 applicable volumes under the RFS. Subsequently, several refining companies submitted individual petitions to the Administrator that also request a waiver of the 2014 applicable volumes. Section 211(o)(7)(A) of the Clean Air Act allows the Administrator of the EPA to waive the national volume requirements of the renewable fuel standard program in whole or in part if the Administrator determines that implementation of those requirements would severely harm the economy or environment of a State, a region, or the United States, or that there is

inadequate domestic supply. EPA is inviting comment on all issues relevant to the petitions for a waiver that have been submitted. Comments submitted in response to a related **Federal Register** notice proposing the 2014 volume requirements will be considered to also have been submitted to the docket for this notice.

DATES: Comments must be received on or before January 28, 2014.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2013-0747, by one of the following methods:

Instructions: Direct your comments on the petitions for a waiver of the 2014 volume requirements to Docket ID No. EPA-HQ-OAR-2013-0747. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or email. The www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the

comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. II. Background

The Renewable Fuel Standard (RFS) program began in 2006 pursuant to the Energy Policy Act of 2005 (EPAct), which added a renewable fuel program to the Clean Air Act (CAA, or "Act").
