

The FLSA also requires that the Secretary of Labor, to the extent necessary to prevent curtailment of employment opportunities, provide certificates authorizing the employment of full-time students at not less than 85 percent of the applicable minimum wage or less than \$1.60, whichever is higher, in (1) retail or service establishments and agriculture (29 U.S.C. 214(b)(1); 29 CFR 519.11(a)). The FLSA and the regulations set forth the application requirements as well as the terms and conditions for the employment of full-time students at subminimum wages under certificates and temporary authorization to employ such students at subminimum wages. The subminimum wage programs are designed to increase employment opportunities for full-time students. Regulations issued by the DOL, Office of Apprenticeship no longer permit the payment of subminimum wages to apprentices in an approved program. 29 CFR 29.5(b)(5). Thus, the DOL has issued no apprentice certificates since 1987. However, the WHD must maintain the information collection in order for the agency to fulfill its statutory obligation under FLSA to maintain this program.

Division of Coal Mine Workers' Compensation; Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Background: The Black Lung Benefits Act of 1977, as amended, 30 U.S.C. 901 et seq., provides for the payment of benefits to coal miners who are totally disabled by black lung disease arising out of coal mine employment, and their dependents and survivors. Once a miner has been identified as having performed non-coal mine work subsequent to coal mine employment, the miner or the miner's survivor is asked to complete a CM-913 to compare coal mine work to non-coal mine work. This employment information along with medical information is used to establish whether the miner is totally disabled due to black lung disease caused by coal mine employment. This information collection is currently approved for use through April 30, 2014.
