

that POR. When the sale of the subject merchandise occurs within the POR specified by the Department's regulations, but the entry occurs after the POR, the specified POR may be extended unless it would be likely to prevent the completion of the review within the time limits set by the Department's regulations.¹⁰ Additionally, the preamble to the Department's regulations states that both the entry and the sale should occur during the POR, and that under "appropriate" circumstances the Department has the flexibility to extend the POR.¹¹ The Department finds that extending the POR to capture this entry would not prevent the completion of the review within the time limits set by the Department's regulations. Therefore, the Department has extended the POR for the new shipper review of Success by fourteen days.

Initiation of New Shipper Review

Pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214(d)(2), we find that the request submitted by Success meets the threshold requirements for initiation of a new shipper review for shipments of drawn sinks from the PRC produced by Xinhe and exported by Success. If the information supplied by Success is later found to be incorrect¹² or insufficient during the course of this proceeding, the Department may rescind the review or apply adverse facts available, depending upon the facts on record. The Department will conduct this review according to the deadlines set forth in section 751(a)(2)(B)(iv) of the Act.

It is the Department's usual practice, in cases involving non-market economies, to require that a company seeking to establish eligibility for an antidumping duty rate separate from the country-wide rate provide evidence of *de jure* and *de facto* absence of government control over the company's export activities. Accordingly, included in our questionnaire will be specific questions for ascertaining Success's eligibility for a separate rate. The review will proceed if the responses provide sufficient indication that Success is not subject to either *de jure* or *de facto* government control with respect to its exports.

We will instruct CBP to allow, at the option of the importer until the

completion of the review, the posting of a bond or security in lieu of a cash deposit for each entry of the subject merchandise exported by Success and produced by Xinhe in accordance with section 751(a)(2)(B)(iii) of the Act and 19 CFR 351.214(e). To assist in its analysis of the *bona fides* of this company's sales, upon initiation of this new shipper review, the Department will require Success to submit on an ongoing basis complete transaction information concerning any sales of subject merchandise to the United States that were made subsequent to the POR. Interested parties requiring access to proprietary information in this new shipper review should submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 19 CFR 351.306.

This initiation and notice are in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214 and 19 CFR 351.221(c)(1)(i).

Dated: November 27, 2013.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper- Grouper Fishery Off the South Atlantic States; Regulatory Amendment 17

AGENCY: National Marine Fisheries
Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA),
Commerce.

ACTION: Notice of Intent (NOI) to prepare
a draft environmental impact statement
(DEIS); request for comments; notice of
scoping meetings.

SUMMARY: NMFS, Southeast Region, in
collaboration with the South Atlantic
Fishery Management Council (Council),
intends to prepare a DEIS to describe
and analyze a range of alternatives for
management actions to be included in
Regulatory Amendment 17 to the
Fishery Management Plan (FMP) for the
Snapper-Grouper Fishery of the South
Atlantic Region (Regulatory
Amendment 17). Regulatory
Amendment 17 will consider
alternatives to modify existing marine
protected areas (MPAs) and establish
new MPAs. The purpose of this NOI is
to solicit public comments on the scope
of issues to be addressed in the DEIS
and to announce scoping meetings.

DATES: Written comments on the scope
of issues to be addressed in the DEIS
will be accepted until January 3, 2014.

ADDRESSES: You may submit comments
on the amendment identified by

“NOAA-NMFS-2013-0164” by any of
the following methods:

SUPPLEMENTARY INFORMATION: The
Council and NMFS have implemented
annual catch limits, accountability
measures, harvest prohibitions, and
management measures for deep-water
snapper-grouper species managed by the
Council. Deep-water snapper-grouper
species include speckled hind, warsaw
grouper, snowy grouper, blueline
tilefish, yellowedge grouper, misty
grouper, queen snapper, and silk
snapper. The intent of these measures is
to prevent overfishing, rebuild the
overfished stock of snowy grouper, and
minimize bycatch to the extent
practicable.

To reduce the anticipated bycatch
mortality of speckled hind and warsaw
grouper, Amendment 17B to the FMP
prohibited all fishing for and possession
of six deep-water snapper-grouper
species (snowy grouper, blueline
tilefish, yellowedge grouper, misty

grouper, queen snapper, and silk
snapper) beyond a depth of 240 ft (73
m) (75 FR 82280, December 30, 2010).
Following the implementation of the
deep-water fishing prohibition, the
Council and NMFS were presented with
a new analysis of catch data (June 1,
2011, SERO-LAPP-2011-06 Report)
and the results of a study conducted by
the state of North Carolina through an
exempted fishing permit study. Based
on that new information, the Council
and NMFS, through Regulatory
Amendment 11 to the FMP, removed
the 240-ft (73-m) harvest prohibition on
six deep-water snapper-grouper species
(77 FR 27374, May 10, 2012) and
concluded that other management
measures would be more effective in
reducing discard mortality of speckled
hind and warsaw grouper and
minimizing the socio-economic effects
to deep-water snapper-grouper fishers.

The DEIS for Regulatory Amendment
17 would consider alternatives to
modify existing MPAs and establish
new MPAs. In 2009, through
Amendment 14 to the FMP, the Council
and NMFS implemented eight MPAs in
the South Atlantic, where possession,
retention, and fishing for all snapper-
grouper species in the FMP is
prohibited (74 FR 1621, January 13,
2009). The intent of the eight MPAs is
to protect long-lived, deep-water
snapper-grouper species, including
speckled hind and warsaw grouper.
Through Regulatory Amendment 17, the
Council intends to further reduce
bycatch mortality of speckled hind and
warsaw grouper and increase protection
to their deep-water habitat.

An NOI to prepare a DEIS for the
Comprehensive Ecosystem-Based
Amendment 3 (CE-BA 3) was published
on May 23, 2012 (77 FR 30506). One
proposed action in CE-BA 3 was to
modify existing MPAs or to establish
new ones; however, that action has
since been moved to Regulatory
Amendment 17. Since the publication of
the CE-BA 3 NOI, the Council has held
five public workshops in the spring and
summer of 2012 to allow the public an
opportunity to provide locations of
catch and habitat for speckled hind and
warsaw grouper. In addition, the
Council convened meetings of an MPA
Expert Workgroup in May 2012 and
February 2013. The workgroup,
comprised of fishermen and scientists,
developed potential sites for MPA
designation to further protect speckled
hind and warsaw grouper based on
available data. The workgroup
presented their recommendations to the
Council at the June 2012 and March
2013 Council meetings.
