**National Oceanic and Atmospheric  
Administration**

**RIN 0648-BD77**

**Fisheries of the Caribbean, Gulf of  
Mexico, and South Atlantic; Snapper-  
Grouper Fishery Off the South Atlantic  
States; Regulatory Amendment 17**

**AGENCY:** National Marine Fisheries  
Service (NMFS), National Oceanic and  
Atmospheric Administration (NOAA),  
Commerce.

**ACTION:** Notice of Intent (NOI) to prepare  
a draft environmental impact statement  
(DEIS); request for comments; notice of  
scoping meetings.

**SUMMARY:** NMFS, Southeast Region, in  
collaboration with the South Atlantic

management actions to be included in  
Regulatory Amendment 17 to the  
Fishery Management Plan (FMP) for the  
Snapper-Grouper Fishery of the South  
Atlantic Region (Regulatory  
Amendment 17). Regulatory  
Amendment 17 will consider  
alternatives to modify existing marine  
protected areas (MPAs) and establish  
new MPAs. The purpose of this NOI is  
to solicit public comments on the scope  
of issues to be addressed in the DEIS  
and to announce scoping meetings.

**DATES:** Written comments on the scope  
of issues to be addressed in the DEIS  
will be accepted until January 3, 2014.

DeVictor, Southeast Regional Office,

Public Information Officer, South  
Atlantic Fisheries Management Council,

**SUPPLEMENTARY INFORMATION:** The  
Council and NMFS have implemented  
annual catch limits, accountability  
measures, harvest prohibitions, and  
management measures for deep-water  
snapper-grouper species managed by the  
Council. Deep-water snapper-grouper  
species include speckled hind, warsaw  
grouper, snowy grouper, blueline  
tilefish, yellowedge grouper, misty  
grouper, queen snapper, and silk  
snapper. The intent of these measures is  
to prevent overfishing, rebuild the  
overfished stock of snowy grouper, and  
minimize bycatch to the extent  
practicable.

To reduce the anticipated bycatch  
mortality of speckled hind and warsaw  
grouper, Amendment 17B to the FMP  
prohibited all fishing for and possession  
of six deep-water snapper-grouper  
species (snowy grouper, blueline  
tilefish, yellowedge grouper, misty

grouper, queen snapper, and silk  
snapper) beyond a depth of 240 ft (73  
m) (75 FR 82280, December 30, 2010).  
Following the implementation of the  
deep-water fishing prohibition, the  
Council and NMFS were presented with  
a new analysis of catch data (June 1,  
2011, SERO-LAPP-2011-06 Report)  
and the results of a study conducted by  
the state of North Carolina through an  
exempted fishing permit study. Based  
on that new information, the Council  
and NMFS, through Regulatory  
Amendment 11 to the FMP, removed  
the 240-ft (73-m) harvest prohibition on  
six deep-water snapper-grouper species  
(77 FR 27374, May 10, 2012) and  
concluded that other management  
measures would be more effective in  
reducing discard mortality of speckled  
hind and warsaw grouper and  
minimizing the socio-economic effects  
to deep-water snapper-grouper fishers.

The DEIS for Regulatory Amendment  
17 would consider alternatives to  
modify existing MPAs and establish  
new MPAs. In 2009, through  
Amendment 14 to the FMP, the Council  
and NMFS implemented eight MPAs in  
the South Atlantic, where possession,  
retention, and fishing for all snapper-  
grouper species in the FMP is  
prohibited (74 FR 1621, January 13,  
2009). The intent of the eight MPAs is  
to protect long-lived, deep-water  
snapper-grouper species, including  
speckled hind and warsaw grouper.  
Through Regulatory Amendment 17, the  
Council intends to further reduce  
bycatch mortality of speckled hind and  
warsaw grouper and increase protection  
to their deep-water habitat.

An NOI to prepare a DEIS for the  
Comprehensive Ecosystem-Based  
Amendment 3 (CE-BA 3) was published  
on May 23, 2012 (77 FR 30506). One  
proposed action in CE-BA 3 was to  
modify existing MPAs or to establish  
new ones; however, that action has  
since been moved to Regulatory  
Amendment 17. Since the publication of  
the CE-BA 3 NOI, the Council has held  
five public workshops in the spring and  
summer of 2012 to allow the public an  
opportunity to provide locations of  
catch and habitat for speckled hind and  
warsaw grouper. In addition, the  
Council convened meetings of an MPA  
Expert Workgroup in May 2012 and  
February 2013. The workgroup,  
comprised of fishermen and scientists,  
developed potential sites for MPA  
designation to further protect speckled  
hind and warsaw grouper based on  
available data. The workgroup  
presented their recommendations to the  
Council at the June 2012 and March  
2013 Council meetings.

NMFS, in collaboration with the Council, will develop a DEIS to describe and analyze alternatives to address the management needs described above including the “no action” alternative. In accordance with NOAA’s Administrative Order 216–6, Section 5.02(c), Scoping Process, NMFS, in collaboration with the Council, has identified preliminary environmental issues as a means to initiate discussion for scoping purposes only. The public is invited to attend scoping meetings (dates and addresses below) and provide written comments on the preliminary issues, which are identified as actions and alternatives in the Regulatory Amendment 17 scoping document. These preliminary issues may not represent the full range of issues that eventually will be evaluated in the DEIS. A copy of the Regulatory Amendment 17 scoping document is available at [http://sero.nmfs.noaa.gov/sustainable\\_fisheries/s\\_atl/sg/index.html](http://sero.nmfs.noaa.gov/sustainable_fisheries/s_atl/sg/index.html).

After the DEIS associated with Regulatory Amendment 17 is completed, it will be filed with the Environmental Protection Agency (EPA). After filing, the EPA will publish a notice of availability of the DEIS for public comment in the **Federal Register**. The DEIS will have a 45-day comment period. This procedure is pursuant to regulations issued by the Council on Environmental Quality (CEQ) for implementing the procedural provisions of the National Environmental Policy Act (NEPA; 40 CFR parts 1500–1508) and to NOAA’s Administrative Order 216–6 regarding NOAA’s compliance with NEPA and the CEQ regulations.

The Council and NMFS will consider public comments received on the DEIS in developing the final environmental impact statement (FEIS), and before voting to submit the final amendment to NMFS for Secretarial review, approval, and implementation. NMFS will announce in the **Federal Register** the availability of the final amendment and FEIS for public review during the Secretarial review period, and will consider all public comments prior to final agency action to approve, disapprove, or partially approve the final amendment.

NMFS will announce, through a document published in the **Federal Register**, all public comment periods on the final amendment, its proposed implementing regulations, and the availability of its associated FEIS. NMFS will consider all public comments received during the Secretarial review period, whether they are on the final amendment, the proposed regulations, or the FEIS, prior to final agency action.
