

general, to protect investors and the public interest.

The Exchange believes that the proposal is designed to remove impediments to and perfect the mechanism of a free and open market and a national market system because the introduction of the MPL Order on the Exchange will increase competition, not only between market participants, but also between exchanges offering similar functionality. The MPL Order will enable Members to enter an order that is not displayed publicly but is to be executed at the midpoint of the PBBO. The Exchange believes this order type will enhance order execution opportunities on the Exchange and help provide Members with flexibility in executing transactions that meet the specific requirements of the order type. MPL Orders will allow for additional opportunities for investors to interact with orders priced at the midpoint of the PBBO, thus providing price improving liquidity to investors. The MPL Order will offer market participants added functionality and additional trading opportunities similar to what is offered in other trading venues.

Additionally, the Exchange believes that the MPL Order definition is clear and transparent, thus ensuring the conditions under which an MPL Order will be executed, accepted by Exchange systems, or rejected, and therefore is designed to promote just and equitable principles of trade.

The Exchange believes the incorporation of the MPL Order into the Retail Liquidity Program will further the objectives of the Program and is therefore designed to protect investors and the public interest. The Program was designed to increase competition among execution venues, encourage additional liquidity, and offer the potential for price improvement to retail investors. By including MPL Orders as available contra-side interest for Retail Orders, the proposal creates additional incentives to attract retail order flow to the exchange environment and ensures that retail investors benefit from the better prices afforded by MPL Orders.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes the proposed MPL Order will enhance order execution opportunities for member organizations. Further, the Exchange believes the MPL Order will enhance competition

between the Exchange and other exchanges that currently offer similar order types by offering investors another option to access liquidity at the midpoint of the PBBO.

Additionally, by incorporating MPL Orders into the Retail Liquidity Program, the proposal will promote competition for retail order flow among execution venues, and will benefit retail investors by creating additional price improvement opportunities for their order flow. Because the MPL Order is priced at the midpoint of the PBBO, any Retail Order that executes against the MPL Order will be receiving price improvement. As such, the proposal enhances the Program and its objectives by creating additional incentives to attract retail order flow to the exchange environment, while helping to ensure that retail investors benefit from the better prices that Members submitting MPL Orders are willing to provide.
