

hoof shear on steeper slopes, and primarily in north-facing areas as the sloughing and hoof shear which could be contributing to a slow-moving erosion process in which soil is slowly being displaced and moving down the hillsides.

There are no preliminary concerns for the listed fish species and designated critical habitat of listed fish species within or adjacent to this allotment.

Based on these two preliminary issues and their potential for significant impacts, an EIS fits the scope of this analysis rather than an EA.

#### New 218 Objection Period

The new regulations, found at 36 CFR 218, provide an opportunity for individuals, organizations and tribal entities to file an objection to a project before the final decision is signed (36 CFR 218.5). This allows interested individuals, organizations and tribal entities to advise the responsible official about concerns regarding the final decision *before* the decision is made. When the final EIS and *draft* Record of Decision are released for public review, the public will have 45 days in which to review the documents and, if desired, file an objection to the Record of Decision.
