

B. Purpose of the Match: The purpose of this agreement is to verify an individual's eligibility for receipt of benefits under programs administered by the Veterans Benefits Administration.

The VA, as the source agency, will provide DMDC with two electronic files, the VA Compensation and Pension (C&P) and Veterans Assistance and Discharge System (VADS) files. The C&P file contains names of veterans, SSNs, and compensation and pension records. The VADS file contains names of veterans, SSNs, and DD214 data. Upon receipt of the electronic files, DMDC will perform a match using the SSNs in the VA C&P file and the VADS file against the DMDC Active Duty Transaction, Reserve Transaction, and Reserve Master files. DMDC will provide VA OIG an electronic listing of VA C&P and VADS records for which there is no matching record from any of the three DMDC files, and an electronic listing of records that contain data that are inconsistent with data contained in the VA C&P or VADS files. VA OIG is responsible for verifying and determining that the data on the DMDC electronic reply file are consistent with the VA source file and for resolving any discrepancies or inconsistencies on an individual basis.

C. Authority for Conducting the Match: The authority for VA to conduct this match is 5 U.S.C. App. 3, the Inspector General Act of 1978 (IG Act). The IG Act authorizes the VA OIG to conduct audits and investigations relating to the programs and operations of VA, IG Act, § 2. In addition, § 4 of the IG Act provides that the IG will conduct activities designed to promote economy and efficiency and to prevent and detect fraud and abuse in VA's programs and operations.

D. Records To Be Matched: The systems of records maintained by the respective agencies under the Privacy Act of 1974, as amended, 5 U.S.C. 552a, from which records will be disclosed for the purpose of this computer match are as follows:

VA will use personal data from the following Privacy Act record system for the match: Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records-VA, 58VA21/22/28, April 2010.

DoD will use personal data from the following Privacy Act record system for the match: Defense Manpower Data Center Data Base—DMDC 01, published in the **Federal Register** at November 23, 2011, 76 FR 72391.

E. Description of Computer Matching Program: VA, as the source agency, will provide DMDC with two electronic files,

the C&P and VADS files. The C&P file contains names of veterans, SSNs, and compensation and pension records. The VADS file contains names of veterans, SSNs, and DD214 data. Upon receipt of the electronic files, DMDC will perform a match using the SSNs in the VA C&P file and the VADS file against the DMDC Active Duty Transaction, Reserve Transaction, and Reserve Master files. DMDC will provide VA OIG an electronic listing of VA C&P and VADS records for which there is no matching record from any of the three DMDC files, and an electronic listing of records that contain data that are inconsistent with data contained in the VA C&P or VADS files. VA OIG is responsible for verifying and determining that the data on the DMDC electronic reply file are consistent with the VA source file and for resolving any discrepancies or inconsistencies on an individual basis.

The VADS file provided by VA contains approximately 308,000 records per year that include data elements showing veteran's name, SSN, VA claim number, Date of Birth, Date of Discharge, and Character of Service.

The C&P file provided by VA contains approximately 3.6 million records per year that includes data elements showing veteran's stub name, SSN, Date of Birth, Date of Discharge, Entitlement Code, File Number, Combined Degree of Disability, Station Number/Regional Office Number, Suspense Segment Indicator, Address Line 1, Branch of Service, Additional Service Indicator, Net Award Amount, and Net Award Date.

The Active Duty Transaction file provided by DMDC contains approximately 2.7 million records per year historically dating from 1971 to the present. This file includes data elements showing service member's name, SSN, Date of Birth, Separation Program Designator, Interservice Separation code, Date of Separation, and Branch of Service.

The Reserve Transaction file provided by DMDC contains approximately 1.5 million records per year historically dating from 1977 to the present. This file includes data elements showing reserve service member's name, SSN, Date of Birth, Separation Program Designator, Interservice Separation code, Date of Separation, and Branch of Service.

The Reserve Master file provided by DMDC contains approximately 1.3 million records per year historically dating from 1977 to the present. This file does not include character of service. However, a match on this file may indicate that the Reserve service

member spent time on active duty while a member of the Reserve Forces.

F. Inclusive Dates of the Matching Program: This computer matching program is subject to public comment and review by Congress and the Office of Management and Budget. If the mandatory 30 day period for comment has expired and no comments are received and if no objections are raised by either Congress or the Office of Management and Budget within 40 days of being notified of the proposed match, the computer matching program becomes effective and the respective agencies may begin the exchange at a mutually agreeable time and thereafter on a quarterly basis. By agreement between VA and DMDC, the matching program will be in effect for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.
