hearing shall not stay the immediate
effectiveness of this order.

Dated at Rockville, Maryland, this 27th day
of November 2013.

For the Nuclear Regulatory Commission.

Brian E. Holian,
Acting Director, Office of Federal and State
Materials and Environmental Management
Programs.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY
COMMISSION

[Docket No. 50–608; NRC–2013–0053]

SHINE Medical Technologies, Inc.

AGENCY: Nuclear Regulatory
Commission.

ACTION: License application; docketing.

SUMMARY: The U.S. Nuclear Regulatory
Commission (NRC) staff has determined
that the second and final part of the
application for a construction permit,
submitted by SHINE Medical
Technologies, Inc. (SHINE) is acceptable
for docketing.

ADDRESSES: Please refer to Docket ID
NRC–2013–0053 when contacting the
NRC about the availability of
information regarding this document.
You may access publicly-available
information related to this document
using any of the following methods:

• Federal Rulemaking Web site: Go to
http://www.regulations.gov and search
for Docket ID NRC–2013–0053. Address
questions about NRC dockets to Carol
Gallagher; telephone: 301–287–3422;
email: Carol.Gallagher@nrc.gov. For
technical questions, contact the
individual(s) listed in the FOR FURTHER
INFORMATION CONTACT section of this
document.

• NRC’s Agencywide Documents
Access and Management System
(ADAMS): You may access publicly
available documents online in the NRC
Library at http://www.nrc.gov/reading
rm/adams.html. To begin the search,
select “ADAMS Public Documents” and then select “Begin Web-based ADAMS
Search.” For problems with ADAMS,
please contact the NRC’s Public
Document Room (PDR) reference staff at
1–800–397–4209, 301–415–4737, or by
e-mail to pdr.resource@nrc.gov. The
ADAMS accession number for each
document referenced in this document
(if that document is available in
ADAMS) is provided the first time that
a document is referenced.

• NRC’s PDR: You may examine and
purchase copies of public documents at
the NRC’s PDR, Room O1–F21, One
White Flint North, 11555 Rockville
Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT:

Steven Lynch, Office of Nuclear Reactor
Regulation, U.S. Nuclear Regulatory
Commission, Washington, DC, 20555–
0001; telephone: 301–415–1524; email:
Steven.Lynch@nrc.gov.

SUPPLEMENTARY INFORMATION: By letter
dated May 31, 2013 (SMT–2013–023,
ADAMS Accession No.), SHINE
submitted the second and final part of
its two-part application for a
construction permit. By letter dated
September 25, 2013 (ADAMS Accession
No. ML13269A378), SHINE
supplemented this submission with a
discussion of preliminary plans for
 cope with emergencies, as required by
section 50.34(a)(10) of Title 10 of the
Code of Federal Regulations (10 CFR),
completing its application for a
construction permit. An exemption from
certain requirements of 10 CFR
2.101(a)(5) granted by the Commission
on March 20, 2013 (ADAMS Accession
No. ML13072B195), in response to a
letter from SHINE dated February 18,
2013 (ADAMS Accession No.
ML13051A007), allowed SHINE to
submit its construction permit
application in two parts. Specifically,
the exemption allowed SHINE to submit
a portion of its application for a
construction permit up to six months
prior to the remainder of the application
regardless of whether or not an
environmental impact statement or a
supplement to an environmental impact
statement is prepared during the review
of its application. If granted, the
construction permit would allow SHINE
to construct a medical radioisotope
production facility in Janesville,
Wisconsin.

Part one of SHINE’s construction
permit application was submitted by
letter dated March 26, 2013 (ADAMS
Accession No. ML13088A192). In
accordance with 10 CFR 2.101(a)(5), this
partial application submittal contained
the following:

• The description and safety
assessment of the site required by 10 CFR
50.34(a)(1)

The NRC staff acknowledged receipt
of this partial application for a
construction permit under 10 CFR part
50, “Domestic Licensing of Production
and Utilization Facilities,” in the
Federal Register (78 FR 29390) on May
20, 2013. On June 25, 2013, NRC staff
determined that part one of SHINE’s
application for a construction permit
was complete and acceptable for
docketing (ADAMS Accession No.
ML13150A280), assigning the
application Docket No. 50–608.

The NRC staff has now completed its
acceptance review of part two of
SHINE’s application for a construction
permit and determined that this second
and final portion of SHINE’s two-part
construction permit application, as
supplemented, contains the remainder
of the preliminary safety analysis report
required by 10 CFR 50.34(a) and was
submitted in accordance with the
requirements of 10 CFR 2.101(a)(5).
Therefore, the application is complete
and acceptable for docketing. SHINE’s
construction permit application, in
its entirety, has been placed under Docket
No. 50–608. Please reference this docket
number in all future correspondence
concerning the review of the SHINE
construction permit application.

The NRC staff is now prepared to
begin a detailed technical review of the
SHINE construction permit application.
In the coming weeks, a review schedule
will be published that identifies
significant milestones and an expected
review completion date. Docketing of
the application does not preclude the
NRC from requesting additional
information from the applicant as the
review proceeds, nor does it predict
whether the Commission will grant or
deny the requested construction permit.
In support of the review of the SHINE
construction permit application, a
hearing will be conducted by the
Commission or a Board designated by
the Chief of the Atomic Safety and
Licensing Board Panel in accordance
with procedures in 10 CFR Part 2,
“Agency Rules of Practice and
Procedure.” A copy of the construction
permit application will be referred to
the Advisory Committee on Reactor
Safeguards for a review and report
consistent with 10 CFR 50.57 (“Hearings
and report of the Advisory Committee
on Reactor Safeguards.”) A future
Federal Register notice will announce
the opportunity to petition for leave to
intervene in the hearing required for the
application by 10 CFR 50.58 as well as
the time and place of the hearing.
Additionally, in accordance with 10
CFR Part 51, “Environmental Protection
Regulations for Domestic Licensing and
Related Regulatory Functions,” the
Commission will also prepare an
environmental impact statement for the
proposed action. If the Commission
finds that the SHINE construction
permit application meets the applicable standards of the Atomic Energy Act and the Commission’s regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a construction permit, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

This notice of docketing of the construction permit application does not begin a review to determine whether the proposed SHINE facility should operate. A separate application for an operating license must be submitted for NRC review and approval and, if docketed, would be the subject of a separate Federal Register notice.

Dated at Rockville, Maryland, this 2nd day of December, 2013.

For the Nuclear Regulatory Commission.

Alexander Adams, Jr.,

Chief, Research and Test Reactors Licensing Branch, Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2013–0227]

Operator Licensing Examination Standards for Power Reactors

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft NUREG; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is making available for public comment a draft NUREG, NUREG–1021, Revision 10, “Operator Licensing Examination Standards for Power Reactors.”

DATES: Submit comments by February 7, 2014. Comments received after this date will be considered if it is practical to do so, but the NRC staff is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

• NRC’s Agencywide Documents Access and Management System (ADAMS): You may access publicly-available documents online in the NRC Library at http://www.nrc.gov/reading-rm/adsam.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or email to pdr.resource@nrc.gov. The ADAMS accession number for the draft NUREG is ML13325A090.

• NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC–2013–0227 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at http://www.regulations.gov as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

Discussion

The draft NUREG provides policy and guidance for the development, administration, and grading of examinations used for licensing operators at nuclear power plants pursuant to the Commission’s regulations in Title 10 of the Code of Federal Regulations (10 CFR) Part 55, “Operator Licenses.” This draft NUREG also provides guidance for maintaining operators’ licenses, and for the NRC to conduct requalification examinations when necessary.

Dated at Rockville, Maryland, this 2nd day of December, 2013.

For the Nuclear Regulatory Commission.

Michael Junge,

Chief, Operator Licensing and Human Performance Branch, Division of Construction Inspection and Operational Programs, Office of New Reactors.
