this time. The production activity described in the notification is authorized on a limited basis, subject to the FTZ Act and the Board’s regulations, including Section 400.14, and further subject to a restriction requiring that all foreign status inputs classified within HTSUS Chapter 32 used in the production activity be admitted to the subzone in privileged foreign status (19 CFR 146.41). Also, as noted in the request, textile inputs (classified under HTSUS Subheadings 4202.92, 5911.90 and 6307.90) will be admitted to the subzone in privileged foreign status.

Foreign-Trade Zone (FTZ) 230—Piedmont Triad Area, North Carolina, Notification of Proposed Production Activity, Sonoco Display and Packaging (Kitting—Gift Sets), Rural Hall and Winston-Salem, North Carolina

The Piedmont Triad Partnership, grantees of FTZ 230, submitted a notification of proposed production activity to the FTZ Board on behalf of Sonoco Display and Packaging for its facilities located in Rural Hall and Winston-Salem, North Carolina within FTZ 230. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 19, 2013.

Sonoco Display and Packaging already has authority to produce various cosmetic and personal hygiene gift sets within Sites 24—27 of FTZ 230. The current request would add deodorant/antiperspirant and body wash gift sets and certain foreign components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Sonoco Display and Packaging from customs duty payments on the foreign status components used in export production. On its domestic sales, Sonoco Display and Packaging would be able to choose the duty rates during customs entry procedures that apply to deodorant/antiperspirant and body wash gift sets (free, 4.9%) for the foreign status inputs noted below and in the existing scope of authority. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components sourced from abroad include: plastic boxes and cases; train cases, vanity cases, component bags, wallets, various hand-held bags, and handbags and clutches of textile materials (HTSUS Subheadings 4202.12, 4202.22, 4202.29, 4202.32, 4202.92, and 4202.99); component bags of plaited natural materials; set boxes; glass trays; plush items (e.g., stuffed toys, animals); eyelash curlers; and, perfume pursers (duty rate ranges from free to 20%). Inputs included in certain textile categories (classified within HTSUS Subheadings 4202.12, 4202.22, 4202.32, and 4202.92) will be admitted to the zone under domestic (duty-paid) status or privileged foreign status (19 CFR 146.41), thereby precluding inverted tariff benefits on such items.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board’s Executive Secretary at the address below. The closing period for their receipt is January 21, 2014.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the “Reading Room” section of the FTZ Board’s Web site, which is accessible via www.trade.gov/ftz.

Foreign-Trade Zone (FTZ) 20—Suffolk, Virginia; Notification of Proposed Production Activity; Canon Virginia, Inc. (Toner Cartridges, Toner Bottles and Cartridge Parts); Newport News, Virginia

Canon Virginia, Inc. (CVI) submitted a notification of proposed production activity to the FTZ Board for its facilities in Newport News, Virginia within Subzone 20D. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 27, 2013.

CVI already has authority to produce a range of printers, copiers and their parts, including toner cartridges and toner bottles, within Subzone 20D. The current request would add foreign-status components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials and components and specific finished products listed in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt CVI from customs duty
payments on the foreign-status components used in export production. On its domestic sales, CVI would be able to choose the duty rates during customs entry procedures that apply to toner cartridges, bottles and cartridge parts (duty free) for the foreign-status inputs noted below and in the existing scope of authority. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components and materials sourced from abroad include: oil (releasing agent—aliphatic hydrocarbon), polymer fixing agent (polypol curative), resins (polyethylene terephthalate, polysicyocyanate prepolymers, and high impact polystyrene) and filter paper (duty rates are: duty-free, 10 cents/barrel or 6.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board’s Executive Secretary at the address below. The closing period for their receipt is January 21, 2014.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230–0002, and in the “Reading Room” section of the FTZ Board’s Web site, which is accessible via www.trade.gov/ftz.

Frontseating Service Valves From the People’s Republic of China; Final Results of Antidumping Duty Administrative Review: 2011–2012

AGENCY: Enforcement and Compliance, formerly Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On May 13, 2013, the Department of Commerce (“the Department”) published the preliminary results of the administrative review of the antidumping duty on frontseating service valves from the People’s Republic of China. The period of review (“POR”) is April 1, 2011, through March 31, 2012. The review covers two exporters of subject merchandise, Zhejiang DunAn Hetian Metal Co., Ltd. (“DunAn”) and Zhejiang Sanhua Co., Ltd. (“Sanhua”). The Department continues to find that DunAn did not have reviewable entries during the POR. Additionally, we find that Sanhua made sales in the United States at prices below normal value (“NV”). Based on our analysis of the comments received, we have made changes to our margin calculations for Sanhua. The final weighted-average dumping margin for this review is listed below in the section entitled “Final Results of the Review.”

DATES: Effective Date: December 9, 2013.

Background

On May 13, 2013, the Department published the Preliminary Results. At that time, we invited interested parties to comment on our Preliminary Results. Subsequent to the Preliminary Results, we conducted a verification of Sanhua’s questionnaire responses in Xialiquan Village, Zhejiang Province, People’s Republic of China from August 5 through August 9, 2013.

We received case briefs from Parker-Hannifin Corporation (“Petitioner”) and Sanhua on October 17, 2013, and rebuttal briefs from the same parties on October 23, 2013. At Sanhua’s request, we held a hearing on October 29, 2013.

See hearing transcript, “In the Matter of the Antidumping Duty Order on Frontseating Service

Scope of the Order

The merchandise covered by this order is frontseating service valves, assembled or unassembled, complete or incomplete, and certain parts thereof. Frontseating service valves are classified under subheading 8481.80.1095, and also have been classified under subheading 8415.90.80.85, of the Harmonized Tariff Schedule of the United States (“HTSUS”). It is possible for frontseating service valves to be manufactured out of primary materials other than copper and brass, in which case they would be classified under HTSUS subheadings 8481.80.3040, 8481.80.3090, or 8481.80.5090. In addition, if unassembled or incomplete frontseating service valves are imported, the various parts or components would be classified under HTSUS subheadings 8481.90.1000, 8481.90.3000, or 8481.90.5000. The HTSUS subheadings are provided for convenience and customs purposes. A full written description of the scope of the order is contained in the memorandum from Edward C. Yang, Office Director, Office VII, Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Acting Assistant Secretary for Enforcement and Compliance, “Frontseating Service Valves from the People’s Republic of China: Issues and Decision Memorandum for the Final Results of the 2011–2012 Administrative Review” (“Issues and Decision Memorandum”), which is hereby adopted by this notice and incorporated herein by reference. The written description is dispositive.

Final Determination of No Reviewable Entries

As noted in the Preliminary Results, we received a no-shipment certification from DunAn. The company reported that it made no shipments of subject merchandise to the United States during the POR. U.S. Customs and Border Protection (“CBP”) confirmed that it did not identify evidence of shipments from DunAn. Following publication of the Preliminary Results, we received no comments from interested parties regarding DunAn. As a consequence, and because the record contains no evidence to the contrary, we continue to find that DunAn did not make reviewable entries during the POR. Accordingly, consistent with the Department’s refinement to its

Valves (“FSVs”) from the PRC (A–570–933) (4/1/2011–3/31/2012),” filed November 6, 2013; see also Frontseating Service Valves from the People’s Republic of China; A–570–933; Request for a Hearing by Zhejiang Sanhua Co., Ltd. See Preliminary Results, 78 FR at 27954.
