

speed, reliability, and accessibility of the movement of people or freight; and

- Improve transportation safety, including reducing transportation accidents, and serious injuries and fatalities; and

- Can be supported by an acceptable degree of non-Federal financial commitments.

Respondents: The target groups of respondents are eligible applicants for the PRNS program, this includes:

- (A) A State department of transportation or a group of State departments of transportation;

- (B) A tribal government or consortium of tribal governments;

- (C) A transit agency; or

- (D) A multi-State or multi-jurisdictional group of the agencies described in (A) through (C) above.

The target groups identified in the MAP-21 are "State departments of transportation" (SDOTs). The FHWA interprets SDOTs to be the minimum target group of respondents and believes it is necessary to survey all eligible applicants groups, in order to compile the comprehensive list of projects required by the law.

Estimate:

State Departments of Transportation = 52

Transit Agencies = 50

Tribal Governments = 10

Multi-state or multi-jurisdictional groups = 10

Burden hours:

80 hours/State Department of Transportation = 4160 hours
 40 hours/Transit Agency = 2000 hours
 10 hours/Tribal Government = 100
 20 hours/Multi-state or multi-jurisdictional groups = 200
 Total burden hours = 6460 (as allocated above).

Estimated Average Burden per Response: The estimated average reporting burden per response is 80 hours per State Department of Transportation, 40 hours per large transit agency, 10 hours per tribal government and 20 hours per Multi-state or multi-jurisdictional groups. The estimated average burden for SDOTs is greater than other respondents, this is in part because the FHWA expects that SDOTs, in developing their PNRS project lists, will gather input from project developers, such metropolitan planning organizations, seaports, railroads, economic development organizations, and entities which have responsibility for planning and/or implementing transportation infrastructure projects.

Estimated Total Annual Burden: This information collection is a one-time requirement.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: December 4, 2013.

SUPPLEMENTARY INFORMATION:

Background: The Secretary of Transportation (Secretary) is responsible for implementing regulations to issue safety permits for transporting certain HM in accordance with 49 U.S.C. 5101

The Hazardous Materials (HM) Safety Permit regulations (49 CFR part 385, Subpart E) require carriers to complete a “Combined Motor Carrier Identification Report and HM Permit Application” (Form MCS–150B). The HM Safety Permit regulations also require carriers to have a security program. As part of the HM Safety Permit regulations, carriers are required to develop and maintain route plans so that law enforcement officials can verify the correct location of the HM shipment. The FMCSA requires companies holding permits to develop a communications plan that allows for the periodic tracking of the shipment. This information covers the record of communications that includes the time of the call and location of the shipment. The records may be kept by either the driver (e.g., recorded in the log book) or the company. These records must be kept, either physically or electronically, for at least six months at the company’s principal place of business or be readily available to employees at the company’s principal place of business.
