Zero Rate Reactive Power Rate Schedules; Notice of Staff Workshop

This notice establishes the topics for discussion at the workshop directed by the Commission in *Chehalis Power Generating, L.P.*, Docket No. ER05-1056-007.¹ The workshop is intended to explore the mechanics of public utilities filing reactive power rate schedules for which there is no compensation. - Whether Articles 9.6.3 and 11.6 of the *pro forma* Large Generator Interconnection Agreement and Article 1.8 of the *pro forma* Small Generator Interconnection Agreement can be interpreted as already providing for a zero rate on file for reactive power service, including service that is within the deadband and/or outside the deadband.
- Whether there should be different filing requirements for different types of public utilities.
- Other questions regarding the mechanics of filing reactive power rate schedules.

FEDERAL COMMUNICATIONS COMMISSION

[MB Docket No. 13-50; FCC No. 13-150]

Commission Policies and Procedures Under the Communications Act, Foreign Investment in Broadcast Licensees

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: This Declaratory Ruling is intended to remove apparent uncertainty regarding Commission policies and procedures in reviewing broadcast applications for transfer of control, or requests for declaratory ruling, that seek greater than 25 percent indirect foreign ownership in the controlling U.S. parents of broadcast licensees pursuant to the Communications Act of 1934. The ruling clarifies that the Commission intends to evaluate any applications or proposed transactions that would exceed the statutory 25 percent

benchmark on a case-by-case basis. The Declaratory Ruling responds to a request from a broad coalition of interested parties, including broadcasters, public interest groups and the financial sector, that the Commission clarify that it intends to exercise its statutory discretion to conduct a substantive, facts and circumstances evaluation of proposals seeking above-the-benchmark foreign investment.

Synopsis of the Declaratory Ruling

I. Introduction

1. This Declaratory Ruling issued pursuant to § 1.2 of the Commission’s rules¹ is intended to remove apparent uncertainty about the Commission’s policies and procedures for evaluating potential foreign investment in broadcast licensees under section 310(b)(4) of the Communications Act of 1934, as amended (the Act).² That section restricts foreign ownership or voting interests exceeding 25 percent of the capital stock in U.S.-organized entities that control broadcast (and certain other types of) Commission licensees, when the Commission finds that the imposition of such a limitation is in the public interest. As noted below, broadcasters, public interest groups, and others have expressed the view that it would be in the public interest to increase access to capital and investment financing for the broadcast sector. These parties assert that, as they read Commission precedent, the application of section 310(b)(4) to broadcast licensees has restricted the flow of foreign capital to domestic broadcast licensees or to entities interested in entering the broadcast
