The lease and/or conveyance, when issued, will be subject to the provisions of the R&P Act and applicable regulations of the Secretary of the Interior and will contain the following reservations to the United States:

5. Any other reservations that the authorized officer determines appropriate to ensure public access and proper management of Federal land and interests therein.

Subject to limitations prescribed by law and regulations, prior to conveyance, a holder of any right-of-way within the lease area may be given the opportunity to apply for the right-of-way for conversion to a new term, including perpetuity, if applicable.
Detailed information concerning this proposed project, including, but not limited to documentation relating to compliance with applicable environmental and cultural resource laws, is available for review at the BLM Las Cruces District at the address above.

Upon publication of this notice in the Federal Register, the land described will be segregated from appropriation under the public land laws, including the general mining laws, except for lease or conveyance under the R&PP Act, and leasing under the mineral leasing laws.

**Classification Comments:** Interested parties may submit comments involving the suitability of the land for the proposed facility. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

The proposed direct sale is in conformance with the BLM Green River Resource Management Plan (RMP) approved on August 8, 1997. The parcel is identified for disposal in the RMP Record of Decision, pages 171 and 172 and Map 6. The BLM is offering the parcel to PacifiCorp to expand the adjacent landfill. PacifiCorp’s private lands surround three sides of the public lands. This parcel is not needed for any other Federal purpose and is difficult and uneconomical to manage. The regulations found at 43 CFR 2711.3–3(a)(3) permit direct sales if there is a need to recognize an authorized use such as an existing business which could suffer a substantial economic loss if the tract were purchased by other than the authorized user. Conveyance of the identified public land will be subject to valid existing rights and encumbrances of record, including but not limited to, rights-of-way for roads and public utilities. All minerals will be reserved to the United States in the conveyance. Pursuant to the requirements of 43 CFR 2711.1–2(d), the lands identified above will be segregated from appropriation under the public land laws, including the mining laws, upon publication in the Federal Register of this notice. Upon publication of this NORA, and until completion of the sale, the BLM is no longer accepting land use applications affecting the identified public land, except applications for the amendment of previously filed right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2807.15 and 2886.15. This segregation will terminate upon the issuance of a patent, publication in the Federal Register of a termination of the segregation, or December 14, 2015, whichever comes first unless extended by the BLM State Director in accordance with 43 CFR 2711.1–2(d) prior to the termination date.

The following terms and conditions would appear as reservations to the United States on the conveyance document for this parcel:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945).
2. All minerals, together with the right to prospect for, mine, and remove such deposits from the same under applicable
