Prestressed Concrete Steel Rail Tie Wire From the People’s Republic of China: Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination

AGENCY: Enforcement and Compliance, formerly Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (“Department”) preliminarily determines that prestressed concrete steel rail tie wire (“PC tie wire”) from the People’s Republic of China (“PRC”) is being, or is likely to be, sold in the United States at less than fair value (“LTFV”), as provided in section 733(b) of the Tariff Act of 1930, as amended (“the Act”). The period of investigation (“POI”) is October 1, 2012, through March 31, 2013. The weighted-average dumping margins are shown in the “Preliminary Determination” section of this notice. The final determination will be issued 135 days after the publication date of this preliminary determination in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

Scope of the Investigation

The product covered by this investigation is high carbon steel wire; stress relieved or low relaxation; indented or otherwise deformed; meeting at a minimum the physical, mechanical, and chemical requirements of the American Society of Testing Materials (“ASTM”) A881/A881M specification; regardless of shape, size or alloy element levels; suitable for use as prestressed tendons in concrete railroad ties (“PC tie wire”). High carbon steel is defined as steel that contains 0.6 percent or more of carbon by weight.

PC tie wire is classified under the Harmonized Tariff Schedule of the United States (“HTSUS”) subheading 7217.10.8045, but may also be classified under subheadings 7217.10.7000, 7217.10.8025, 7217.10.8030, 7217.10.8090, 7217.10.9000, 7229.90.1000, 7229.90.5016, 7229.90.5031, 7229.90.5051, 7229.90.9000, and 7312.10.3012. Although the HTSUS subheadings are provided for convenience and customs

purposes, the written description of the scope of the investigation is dispositive.¹

Methodology

The Department has conducted this antidumping duty investigation in accordance with section 731 of the Act. Export prices (“EPs”) have been calculated in accordance with section 772 of the Act. Because the PRC is a non-market economy within the meaning of section 771(18) of the Act, normal value has been calculated in accordance with section 773(c) of the Act. Specifically, unless specified otherwise, the factors of production (“FOPs”) for the respondent, Silvery Dragon Group Technology and Trading Co., Ltd. Tianjin (“Silvery Dragon Tech”) have been valued using data from the primary surrogate country, Thailand, a country comparable economically to the PRC and a significant producer of comparable merchandise.

For a full description of the methodology underlying our conclusions, see “Decision Memorandum for the Preliminary Determination in the Antidumping Duty Investigation of Prestressed Concrete Steel Rail Tie Wire from the People’s Republic of China,” from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Paul Piquado, Assistant

Secretary for Enforcement and Compliance, dated concurrently with this notice (“Preliminary Decision Memorandum”) and hereby adopted by this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (“IA ACCESS”). IA ACCESS is available to registered users at <http://iaaccess.trade.gov>, and is available to all parties in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn>. The signed and electronic versions of the Preliminary Decision Memorandum are identical in content.

Combination Rates

In the *Initiation Notice*, the Department stated that it would calculate combination rates for the respondents that are eligible for a separate rate in this investigation.² This practice is described in Policy Bulletin 05.1.³

Preliminary Determination⁴

The Department preliminarily determines that the following weighted-average dumping margins exist:

Exporter	Producer	Weighted-average dumping margin (percent)
Silvery Dragon Group Technology and Trading Co., Ltd. Tianjin	Silvery Dragon Prestressed Materials Co., Ltd. Tianjin	14.64
PRC-wide Entity*		18.02

* The PRC-wide entity includes Wuxi Jinyang Metal Products Co., Ltd. and Shanxi New-Mile International Trade Co., Ltd.

Disclosure and Public Comment

The Department intends to disclose calculations performed for this preliminary determination to the parties within five days after the date of publication of this notice in accordance with 19 CFR 351.224(b). Case briefs or other written comments may be

submitted to the Assistant Secretary for Enforcement and Compliance via IA ACCESS no later than seven days after the date on which the verification report is issued in this proceeding, and rebuttal briefs, limited to issues raised in case briefs, must be submitted via IA ACCESS no later than five days after the deadline for filing case briefs.⁵ Pursuant

to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.
