

Mitigation Measures

In the *Final Hanford Comprehensive Land-Use Plan Environmental Impact Statement (Hanford Comprehensive Land-Use Plan EIS (DOE/EIS-0222, September 1, 1999) DOE identified specific mitigation measures, policies, and management controls that direct land use at Hanford. DOE committed to these mitigation measures, as documented in the Hanford Comprehensive Land-Use Plan EIS ROD (64 FR 61615 November 12, 1999), which were reaffirmed in the Supplement Analysis, Hanford Comprehensive Land-Use Plan EIS (EIS-0222-SA-02, June 2, 2008) and in the amended ROD (73 FR 55824, September 26, 2008). These mitigation measures will continue to be implemented, as applicable, for the tank waste retrieval and treatment activities discussed in the TC&WM EIS. The TC&WM EIS did not identify any mitigation measures for the short-term resource areas that are needed in addition to those in the Supplement Analysis, Hanford Comprehensive Land Use Plan EIS and its amended ROD.*

DOE has continued to evaluate potential mitigation measures for the contaminated soil at Hanford for several years. Most recently, DOE published the *Long-Range Deep Vadose Zone Program Plan* in October 2010. This program plan summarizes the current state of knowledge regarding deep vadose zone remediation challenges beneath the Central Plateau at Hanford and DOE's approach to solving these challenges. The challenges to implementing deep vadose zone remediation are the result of contaminant depth and spread; the presence of multiple contaminants and comingled waste chemistries; physical, chemical, and biological fate and transport mechanisms; uncertain contaminant behavior; limited availability and effectiveness of cleanup remedies; and the unknown efficacy of remediation performance over the periods and spatial scales needed for making decisions.

Nevertheless, all practicable means to avoid or minimize environmental harm for the decisions identified have been adopted. DOE will prepare and implement a Mitigation Action Plan to address long-term impact areas. Long-term mitigation measures related to SST closure will be refined and presented in the *TC&WM EIS Mitigation Action Plan*, which will be posted on the Hanford and DOE NEPA Web sites identified in **ADDRESSES**. DOE will periodically revisit and update the Mitigation Action Plan as appropriate prior to initiating actions pursuant to this ROD.

Issued in Washington, DC, on December 6, 2013.

David Huizenga,

Senior Advisor for Environmental Management.

FEDERAL DEPOSIT INSURANCE CORPORATION

Sunshine Act Meetings

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Federal Deposit Insurance Corporation's Board of Directors met in open session at 10:00 a.m. on Tuesday, December 10, 2013, to consider the following matters:

Discussion Agenda: Memorandum and resolution re: The Resolution of Systemically Important Financial Institutions: The Single Point of Entry Strategy.

In calling the meeting, the Board determined, on motion of Vice Chairman Thomas M. Hoenig, seconded by Director Jeremiah O. Norton (Appointive), concurred in by Director Thomas J. Curry (Comptroller of the Currency), Director Richard Cordray
