Need and Use of Information Collection: The National Cancer Institute's (NCI) Cancer Prevention

Fellowship Program (CPFP) mission is to train early career scientists from diverse disciplines to become outstanding independent researchers and leaders. This postdoctoral program conducted on-site at NCI has been in existence for over 25 years and has approximately 200 alumni. The current study will focus on the implementation of a new survey instrument to capture career outcomes from CPFP alumni and two comparison groups, CPFP applicants and NCI F32 awardees. With the diversity of disciplines represented by CPFP alumni, the results of this evaluation will be of broad interest to the biomedical research training community.

OMB approval is requested for one year. There are no costs to respondents other than their time. The total estimated annualized burden hours are 197.

ESTIMATED ANNUALIZED BURDEN HOURS

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number, and no person is required to respond to a collection of information unless it displays a currently valid control number. Comments concerning the

accuracy of the burden estimates and any suggestions for reducing the burden should be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section below.

FOR FURTHER INFORMATION CONTACT: Leslie Smith, Office of the Managing Director, at (202) 418-0217, or email: *Leslie.Smith@fcc.gov*.

Form Number: N/A.

Respondents: Incumbent local exchange carriers, and state regulatory entities.

Number of Respondents and Responses: 1,443 respondents; 1,443 responses.

Estimated Time per Response: 26 hours.

Frequency of Response: Annually if changes to study area boundaries; biannually for recertification or previously submitted data.

Obligation to Respond: Required. Statutory authority for this information collection is contained in 47 U.S.C. 254(b).

Total Annual Burden: 7,924 hours for in-house work for large incumbent local exchange carriers.

Total Annual Cost: \$705,935.00 contracting costs for small incumbent local exchange carriers.

Also, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

State commission can also submit these data voluntarily for ILECs in their state. Shapefiles are a commonly used, digitized, geographic information system (GIS) format. Accurate study area boundaries are necessary for implementing various reforms adopted as part of the *USF/ICC Transformation Order*, 76 FR 73830, November 29, 2011, including the legitimate distribution of universal service support to rural, high cost carriers. Once ILECs have uploaded shapefiles to a web interface provided by the Commission, they must certify to

the accuracy of the study area boundary map data. Filers must submit updated boundary shapefiles if their study area boundaries change and must recertify the accuracy of the boundary data every two years.

SUPPLEMENTARY INFORMATION:

I. Abstract

This survey is designed to elicit information about the public's perspectives on attitudes towards and beliefs about jaguars in the

Northwestern Recovery Unit (southern Arizona and southwestern New Mexico). We plan to survey 200 residents, land-based business owners/operators, related government agency personnel, and local wildlife association and/or conservation organization members in the Northwestern Recovery Unit. The survey will gather information on people's current level of knowledge about jaguar ecology and status, people's attitudes towards jaguars, and the social barriers and opportunities to jaguar conservation in this region. The surveys will be in-person interviews. This information will aid us in identifying groups that might be interested in being involved or staying informed about jaguar conservation and highlighting groups with particular concerns that might be addressed in forthcoming policies or programs. We will use information gained from this survey to formulate future jaguar conservation strategies as well as to create educational and outreach materials for jaguar recovery.
