(Docket No. FTA–2013–0038)

Notice of Proposed Buy America Waiver for the Pad and Rubber Boot of a Concrete Block for a Low Vibration Track System

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of proposed Buy America waiver and request for comment.

SUMMARY: The New York Metropolitan Transportation Authority (MTA), New York City Transit (NYCT), MTA Capital Construction Company, has requested a Buy America waiver for the pad and rubber boot of a concrete block for its Low Vibration Track (LVT) system on the basis of non-availability. MTA intends to install an LVT system as part of its Second Avenue Subway Project. This notice is to inform the public of the waiver request and to seek public comment to inform FTA’s decision whether to grant the request.

DATES: Comments must be received by January 16, 2014. Late-filed comments will be considered to the extent practicable.

ADDRESSES: Please submit your comments by one of the following means, identifying your submissions by docket number FTA–2013–0038:

2. Fax: (202) 493–2251.

4. Hand Delivery: U.S. Department of Transportation, 1200 New Jersey Avenue SE., Docket Operations, M–30, West Building, Ground Floor, Room W12–140, Washington, DC 20590–0001 between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Instructions: All submissions must be received by January 16, 2014. The Federal Transit Administration does not accept comments containing information that is not releasable to the public. Information that you do not want released to the public should not be contained in your comments. Internet postings do not create the appearance that the Federal Transit Administration has reviewed or endorsed your material.

FURTHER INFORMATION CONTACT: Mary J. Lee, FTA Attorney-Advisor, at (202) 366–0985 or mary.j.lee@dot.gov.

SUPPLEMENTARY INFORMATION: The purpose of this notice is to provide notice and seek comment on whether the Federal Transit Administration (FTA) should grant a non-availability waiver for the procurement of the pad and rubber boot of the concrete block used in its LVT system for Phase 1 of the Second Avenue Subway Project.

With certain exceptions, FTA’s Buy America requirements prevent FTA from obligating an amount that may be appropriated to carry out its program for a project unless “the steel, iron, and manufactured goods used in the project are produced in the United States.” 49 U.S.C. 5323(j)(1). A manufactured product is considered produced in the United States if: (1) the manufacturing processes for the product take place in the United States; and (2) the components of the product are of U.S. origin. A component is considered of U.S. origin if it is manufactured in the United States, regardless of the origin of its subcomponents. 49 CFR 661.5(d). If, however, FTA determines that “the steel, iron, and goods produced in the United States are not produced in a sufficient and reasonably available amount or are not of a satisfactory quality,” then FTA may issue a waiver (non-availability waiver). 49 U.S.C. 5323(i)(2)(B).

On June 20, 2013, FTA issued a letter to MTA regarding FTA’s determination that the concrete blocks purchased for MTA’s LVT system were not Buy America compliant because they contained foreign manufactured components—the pad and the rubber boot of each concrete block. However, FTA indicated that it would be willing to entertain a non-availability waiver if MTA met the required conditions under 49 CFR 661.7(c) and provided the following information: (1) the history of the procurement, including the technical specifications for the concrete blocks; (2) the technical feasibility of using other replacement parts manufactured in the United States; and (3) MTA’s market research demonstrating the extent to which manufacturers in the United States are capable and willing to produce the pad and the rubber boot.

On September 11, 2013, MTA formally requested a Buy America waiver for the pad and rubber boot. In its request, MTA reiterated that it specified an LVT system to address operational noise and vibration issues, which had been identified as significant adverse impacts in the Final Environmental Impact Statement and Record of Decision for the Second Avenue Subway Project. The LVT system is, among other things, also designed to meet the National Fire Protection Association requirements and the vertical and horizontal gap tolerances between the platform and the train floor required to comply with the Americans with Disabilities Act. In addition, according to MTA, the LVT system has a proven performance history and an expected useful life in excess of 60 years, and would meet the performance requirements of MTA–NYCT’s standard specifications. Along with these reasons, MTA stated that it had, in good faith, concluded that the concrete blocks were components of the LVT system and believed itself to be Buy America compliant.

According to MTA, it is unable to find a U.S.-manufactured pad and rubber boot. However, upon learning that it likely would have to find a U.S.-manufactured pad and rubber boot, MTA began conducting market research.
to encourage U.S. manufacturing of the pads and rubber boots. MTA has learned that there may be a U.S. manufacturer in the near future, but any other concrete blocks used in its LVT system would need to undergo testing according to MTA–NYCT’s Specification 92 for Low-Profile Low Vibration Booted Blocks. MTA states that this testing would delay the Project for over one year. Therefore, MTA requests a waiver that would be limited to Phase 1 of its Second Avenue Subway Project and understands that it would need to continue its good faith efforts to find a U.S.-manufactured pad and rubber boot.

The purpose of this notice is to publish the request and seek public comment from all interested parties in accordance with 49 U.S.C. 5323(j)(3)(A). Comments will help FTA understand completely the facts surrounding the request, including the effects of a potential waiver and the merits of the request. FTA also is working with the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), to seek U.S. manufacturers for these components and expects MTA and others to cooperate in this endeavor. A full copy of the request has been placed in docket number FTA–2013–0038.

Dorval R. Carter, Jr.,
Chief Counsel.

[Docket No. MARAD–2013 0146]

Requested Administrative Waiver of the Coastwise Trade Laws: Vessel JAGUAR; Invitation for Public Comments

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Notice.

SUMMARY: As authorized by 46 U.S.C. 12121, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. A request for such a waiver has been received by MARAD. The vessel, and a brief description of the proposed service, is listed below.

DATES: Submit comments on or before January 16, 2014.

ADDRESSES: Comments should refer to docket number MARAD–2013–0146. Written comments may be submitted by hand or by mail to the Docket Clerk, U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590. You may also send comments electronically via the Internet at http://www.regulations.gov. All comments will become part of this docket and all documents entered into this docket are available on the World Wide Web at http://www.regulations.gov.

SUPPLEMENTARY INFORMATION: As described by the applicant the intended service of the vessel JAGUAR is:

“Intended Commercial Use Of Vessel: For bare boat/lease recreational use.”

Geographic Region: Alabama, Florida, Georgia.

The complete application is given in DOT docket MARAD–2013–0146 at http://www.regulations.gov. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines, in accordance with 46 U.S.C. 12121 and MARAD’s regulations at 46 CFR Part 388, that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter’s interest in the waiver application, and address the waiver criteria given in §388.4 of MARAD’s regulations at 46 CFR Part 388.

Privacy Act

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT’s complete Privacy Act Statement in the Federal Register published on April 11, 2000 (Volume 65, Number 70; Pages 19477–78).

By Order of the Maritime Administrator.

Julie P. Agarwal,
Secretary, Maritime Administration.
