

for FY14 compact funding. In these cases, the Board considered how the countries were evaluated by supplemental sources like Transparency International's Corruption Perceptions Index, the Global Integrity Report, Open Government Partnership status, and the Extractive Industry Transparency Initiative, as applicable. The Board also took into consideration recent actions by each government to address corruption. After accounting for this supplemental information, the Board directed MCC to continue a more limited engagement on compact development with both Benin and Sierra Leone and support their continued efforts to address corruption. The Board discussed the seriousness with which it takes the scorecard's hard hurdles and indicated that it expects both countries to pass the Control of Corruption indicator before it would approve a compact with them.

The Board asked all four countries that do not meet the scorecard criteria to work to improve their policy performance over the coming year.

Countries Newly Selected for Threshold Program Eligibility

For FY14, the Board did not select any new countries as eligible for threshold assistance.

Countries Reselected To Continue Developing Threshold Programs

Two countries selected as eligible for threshold assistance in FY14 were previously selected as eligible. Reselection allows them to access funding from FY2014. These countries are Guatemala and Nepal.

The Board reselected these countries based on their continued performance since their prior selection. The Board determined that since their initial selection, there has been no material change in their performance that would indicate a serious decline in policy performance.

Ongoing Review of Partner Countries' Policy Performance

The Board also reviewed the policy performance of countries that are implementing compacts. These countries do not need to be reselected each year in order to continue implementation. Once MCC makes a commitment to a country through a compact, MCC does not consider the country for reselection on an annual basis during the term of its compact. The Board emphasized the need for all partner countries to maintain or improve their policy performance. If it is determined that a country has demonstrated a significant policy

reversal, MCC can hold it accountable by applying MCC's Suspension and Termination Policy.

Selection To Initiate the Compact Process

The Board also authorized MCC to invite Lesotho to submit a proposal for a compact, as described in section 609 of the Act (22 U.S.C. 7708).

Submission of a proposal is not a guarantee that MCC will finalize a compact with an eligible country. Any MCA assistance provided under section 605 of the Act (22 U.S.C. 7704) will be contingent on the successful negotiation of a mutually agreeable compact between the eligible country and MCC, approval of the compact by the Board, and the availability of funds.
