Coastal Nonpoint Pollution Control Program: Intent To Find That Oregon Has Failed To Submit an Approvable Coastal Nonpoint Pollution Control Program

ACTION: Notice of intent to find that Oregon has failed to submit an approvable coastal nonpoint program.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) and the U.S. Environmental Protection Agency (EPA) invite public comments on the intent of the two agencies to find that Oregon has failed to submit an approvable Coastal Nonpoint Pollution Control Program. The Coastal Zone Act Reauthorization Amendments (CZARA) directs states and territories with coastal zone management programs previously approved under Section 306 of the Coastal Zone Management Act to develop and implement coastal nonpoint programs, which must be submitted to NOAA and EPA for approval. Prior to making such a finding, NOAA and EPA invite public input on the two federal agencies’ reasoning particularly because, among other things, a finding that a state has failed to submit an approvable program would lead to adverse financial consequences for the State in terms of federal grant funding.

DATES: Individuals or organizations wishing to submit comments on the draft findings document should do so by March 20, 2014.

ADDRESSES: Comments should be made to: Joelle Gore, Acting Chief, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, 20910, phone (301) 713–3155, x177, email joelle.gore@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Allison Castellan, Coastal Programs Division, (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, 20910, phone (301) 713–3155, x125, email Allison.Castellan@noaa.gov.

The federal agencies have not, in the
past, found that a state has failed to submit an approvable program under CZARA. The proposed findings document describes why the State program has not yet satisfied three of the remaining conditions that relate to controlling adverse water quality impacts from forestry, new development, and onsite sewage disposal systems. The federal agencies also invite public comment on whether the State program includes agricultural management measures necessary to achieve and maintain water quality standards as provided in CZARA section 6217(b)(3), 16 U.S.C. section 1455b(b)(3).

The federal agencies have not, in the
past, found that a state has failed to submit an approvable program under CZARA. The proposed findings document that would support a final determination by each federal agency of a failure is available for a 90-day public comment period. The proposed findings document and supporting information used to make this decision is available for download on the NOAA Web site at http://coastalmanagement.noaa.gov/ czm/6217/findings.html. Hard copies
will be available at: U.S. Environmental Protection Agency, Oregon Operations Office, 805 SW Broadway, Suite 500, Portland, Oregon, 97205; Tom Townsend, phone (503) 326–3250.

Dated: December 13, 2013.

Holly A. Bamford,
Assistant Administrator for Ocean Services, National Oceanic and Atmospheric Administration.

Nancy K. Stoner,
Acting Assistant Administrator, Office of Water, Environmental Protection Agency.
