review findings between State agencies and FNS (arbitration process). The QC system also contains procedures that provide relief for State agencies when a State agency can demonstrate that a part or all of an excessive error rate was due to an unusual event that had an uncontrollable impact on the State agency’s payment error rate (good cause process). Additionally, State agencies are required to maintain case records for three years to ensure compliance with provisions of the Food and Nutrition Act of 2008.

Need and Use of the Information: The quality control information collection is necessary to meet the requirements of Section 16 of the Act, which requires USDA to establish a system that enhances payment accuracy and improves administration by determining payment error rates, liabilities and performance bonuses.

Forest Service

Title: Volunteer Application and Agreement for Natural and Cultural Resource Agencies.

OMB Control Number: 0596–0080.

Summary of Collection: The Volunteer Act of 1972, (Pub. L. 92–300), as amended, authorizes Federal land management agencies to use volunteers and volunteer organizations to plan, develop, maintain and manage, where appropriate, trails and campground facilities, improve wildlife habitat, and perform other useful and important conservation services throughout the Nation. Participating agencies in Department of Agriculture: Forest Service and National Resources Conservation Service; Department of the Interior: National Park Service, Fish and Wildlife Service, Bureau of Land Management, Bureau of Reclamation, Bureau of Indian Affairs and U.S. Geological Survey; Department of Defense: U.S. Army Corps of Engineers and Department of Commerce: National Oceanic and Atmospheric Administration. Agencies will collect information using Common Forms OF 301—Volunteer Service Application; OF 301a Volunteer Service Agreement and OF 301b Volunteer Service Agreement and Sign-up Form for Groups.

Need and Use of the Information: Agencies will collect the names, addresses, and certain information about individuals who are interested in public service as volunteers. The information is used by the agencies as a position application, to review and determine if a potential volunteer is a good fit for a particular volunteer position. The OF–301a is used to enroll volunteers, collect contact information, parent or guardian approval, describe duties, project locations, schedules and any reimbursements, describe safety requirements and delineate any other terms of service. The new OF–301b form will be used to record the name and contact information of the volunteer group, and the names and signatures of volunteers participating in a project. If the information is not collected, participating natural resource agencies will be unable to recruit and/or screen volunteer applicants or administer/run volunteer programs that are crucial to assisting these agencies in fulfilling their missions.

Description of Respondents: Individuals or households.

Number of Respondents: 83,696.

Frequency of Responses: Reporting: On occasion; Other: One time.
