Farm Service Agency

Title: Noninsured Crop Disaster Assistance Program.

OMB Control Number: 0560-0175.

Summary of Collection: The Noninsured Crop Assistance Program (NAP) is authorized under 7 U.S.C. 7333 and implemented under regulations issued at 7 CFR Part 1437. The NAP is administered under the general supervision of the Executive Vice-President of the Commodity Credit Corporation (CCC) (who also serves as Administrator, Farm Service Agency (FSA)), and is carried out by the FSA State and County committees. NAP is intended to reduce financial losses that occur when natural disasters cause a catastrophic loss of production or prevented planting of an eligible crop by providing coverage equivalent to the catastrophic risk protection level of Federal Crop Insurance. NAP provides assistance for losses of floriculture, ornamental nursery, Christmas tree crops, turfgrass sod, seed crops, aquaculture (including ornamental fish), sea oats and sea grass, and industrial crops. FSA will collect information using several forms.

Need and Use of the Information: The information collected is necessary to determine whether a producer and crop or commodity meet applicable conditions for assistance and to determine compliance with existing rules. Producers must annually: (1) Request NAP coverage by completing an application for coverage and paying a service fee by the CCC-established application closing date; (2) file a current crop-year report of acreage for the covered crop or commodity; and (3) certify harvest production of each covered crop or commodity. The information collected allows CCC to provide assistance under NAP for losses of commercial crops or other agricultural commodities (except livestock) for which catastrophic risk protection under 7 U.S.C. 1508 is not available, and that are produced for food or fiber.

Description of Respondents: Farms; Business or other for-profit; Not-for-profit Institutions.

Number of Respondents: 291,500.
Frequency of Responses: Recordkeeping; Reporting: On occasion; Weekly; Monthly; Annually.
Total Burden Hours: 2,031,830.

Ruth Brown,

Departmental Information Collection Clearance Officer.

The Bureau of Land Management (BLM) is a cooperating agency on this EIS. The Teckla-Osage-Rapid City Transmission 230 kV Project would be approximately 150 miles long. It would cross portions of the Black Hills National Forest and private lands in South Dakota and portions of the Thunder Basin National Grasslands, private lands, BLM lands, and state lands in Wyoming. The line would be constructed on wood or steel H-frame structures for most of its length with possibly some steel monopole structures in the Rapid City area. The structures would be 65 to 75 feet tall and the line would require a right-of-way approximately 125 feet wide.
