

Total estimated burden: 23,286 hours (per year). “Burden” is defined at 5 CFR 1320.3(b).

Total estimated cost: \$4,641,926 (per year), which includes \$2,364,136 annualized capital or operation & maintenance costs.

Changes in the Estimates: The increase in burden from the most recently approved ICR is due to adjustments in the number of new or modified sources and updated labor rates. This ICR accounts for the industry growth since the last ICR renewal period and uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

Additionally, the capital/startup and O&M costs as calculated in section 6(b)(iii) have been corrected to reflect initial performance tests as a one-time capital/startup costs, rather than ongoing O&M costs. This results in an increase in capital costs, and a corresponding decrease in O&M costs.

ICR numbers: EPA ICR No. 1665.12; OMB Control No. 2020–0003.

ICR Status: This ICR is scheduled to expire on January 31, 2014. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable.

Abstract: In the course of administering environmental protection statutes, EPA collects data from “businesses” in many sectors of the U.S. economy. In many cases, “businesses” mark the data it submits to EPA as confidential business information (CBI). In addition, businesses submit information to EPA without the Agency requesting the information. EPA established the procedures described in 40 CFR part 2, subparts A and B, to protect the confidentiality of information as well as the rights of the public to obtain access to information under the Freedom of Information Act (FOIA). In accordance with these regulations, when EPA finds it necessary to make a final confidentiality determination (e.g., in response to a FOIA request or in the course of rulemaking or litigation, a resubstantiation of a prior claim, or an advance confidentiality determination), it shall notify the affected business and provide an opportunity to submit a substantiation of confidentiality claims. This ICR relates to information EPA needs to collect to assist in determining whether previously submitted information is entitled to confidential treatment.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are businesses and other for-profit companies.

Respondent’s obligation to respond: Required to obtain or retain a benefit, 5 U.S.C. Section 522 Freedom of Information Action.

Estimated number of respondents: 228.

Frequency of response: 1 per year.

Total estimated burden: 1533 hours. Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$139,514 includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: EPA as part of the ICR renewal process obtained usage of each of the letters for the past 12 months that comprise this ICR to obtain up-to-date estimates. EPA found that both usage and response rates decreased.
