In an effort to support behavioral health systems’ adoption and management of recovery oriented services, SAMHSA created the Bringing Recovery Supports to Scale Technical Assistance Center Strategy (BRSS TACS). BRSS TACS is a mechanism for implementing SAMHSA’s Recovery Support Strategic Initiative. A goal of this initiative is to understand the finance and quality assurance issues that impact the development of peer recovery personnel in the workforce and the services they deliver. A grasp of these complex issues can enable BRSS TACS to advance its work of supporting states by creating policy guidance on best practices for effectively deploying peer recovery support services in integrated healthcare delivery systems as mandated by the Affordable Care Act.

The proposed pilot study will utilize a semi-structured interview questionnaire with state and organizational representatives from mental health and substance abuse agencies. Questions of interest include an (1) examination of how reimbursement of peer support services is linked to peer roles, delivery settings, and funding streams; (2) quality assurance issues such as credentialing and supervision of peer support personnel; (3) procedures for monitoring, evaluating, and sustaining peer support services; and (4) challenges of delivering peer recovery services in the era of Affordable Care Act.

The representatives (n=40) from state and organizational agencies of mental health and substance abuse will represent a state from the 10 public health regions. States are identified by SAMHSA subject matter experts and stakeholders who are familiar with the structure and function of peer recovery support services. The sampling recommended by SAMHSA experts and stakeholders is a selection of states that have a strong history of providing peer led services and have an active peer-based organization.

The total estimated respondent burden is 20 hours for the period from April 2014 through September 2014. Table 1 below indicates the annualized respondent burden estimate.

BILLING CODE 4162–20–P
Information Collection Request

1. Title: Oil and Hazardous Materials Transfer Procedures.

OMB Control Number: 1625–0030.

Summary: Vessels with a cargo capacity of 250 barrels or more of oil or hazardous materials must develop and maintain transfer procedures. Transfer procedures provide basic safety information for operating transfer systems with the goal of pollution prevention.

Need: Title 33 U.S.C. 1231 authorizes the Coast Guard to prescribe regulations related to the prevention of pollution. Title 33 CFR Part 155 prescribes pollution prevention regulations including those related to transfer procedures.

Forms: N/A.

Respondents: Operators of certain vessels.

Frequency: On occasion.

Burden Estimate: The estimated burden has decreased from 164 hours to 160 hours a year due to a decrease in the estimated annual number of responses.

Dated: December 17, 2013.

R. E. Day,
Rear Admiral, U.S. Coast Guard, Assistant Commandant for Command, Control, Communications, Computers and Information Technology.

Information Collection Requests to Office of Management and Budget

AGENCY: Coast Guard, DHS.

ACTION: Sixty-day notice requesting comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the U.S. Coast Guard intends to submit Information Collection Requests (ICRs) to the Office of Management and Budget (OMB), Office of Information and Regulatory Affairs (OIRA), requesting approval of a revision to the following collection of information: 1625–0002, Application for Vessel Inspection, Waiver, and Continuous Synopsis Record. Our ICRs describe the information we seek to collect from the public. Before submitting these ICRs to OIRA, the Coast Guard is inviting comments as described below.

DATES: Comments must reach the Coast Guard on or before February 24, 2014.
