[Public Notice 8579]

Culturally Significant Objects Imported for Exhibition Determinations: “Khirbet el-Maqatir: History of a Biblical Site”

SUMMARY: Notice is hereby given of the following determinations: Pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985; 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978, the Foreign Affairs Reform and Restructuring Act of 1998 (112 Stat. 2681, *et seq.*; 22 U.S.C. 6501 note, *et seq.*), Delegation of Authority No. 234 of October 1, 1999, and Delegation of Authority No. 236-3 of August 28, 2000, I hereby determine that the objects to be included in the exhibition, “Khirbet el-Maqatir: History of a Biblical Site,” imported from abroad for temporary exhibition within the United States, are of cultural significance. The objects are imported pursuant to loan agreements with the foreign owners or custodians. I also determine that the exhibition or display of the exhibit objects at the Dunham Bible Museum, Houston Baptist University, Houston, Texas, from on or about January 21, 2014, until on or about December 19, 2014, and at possible additional exhibitions or venues yet to be determined, is in the national interest. I have ordered that Public Notice of these Determinations be published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: For further information, including a list of the exhibit objects, contact Paul W. Manning, Attorney-Adviser, Office of the Legal Adviser, U.S. Department of State (telephone: 202-632-6469). The mailing address is U.S. Department of State, SA-5, L/PD, Fifth Floor (Suite 5H03), Washington, DC 20522-0505.

Dated: December 20, 2013.

Evan Ryan,

Assistant Secretary, Bureau of Educational and Cultural Affairs, Department of State.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Buy America Waiver Notification

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: This notice provides information regarding the FHWA’s finding that a partial Buy America waiver is appropriate for the obligation of Federal-aid funds for 112 State requests regarding specific vehicle projects (including sedans, vans, pickups, SUVs, trucks, buses, and equipment, such as backhoes, street sweepers, tractors and low emission locomotives), including projects to retrofit vehicles with individual vehicle components, so long as they are assembled in the United States. The FHWA’s Buy America requirements provide that 100 percent of all steel and iron comprising a predominantly steel and iron product that is permanently incorporated into a project must be domestically manufactured. With respect to vehicles, manufacturers typically assemble these products with many different components and subcomponents containing steel and iron. As a result, vehicles are typically referred to as being made where the final product rolls off the assembly line for delivery into the marketplace. The FHWA is unaware of any vehicle that is comprised of 100 percent domestically produced steel and iron, resulting in a need for a partial Buy America waiver for these projects to proceed.

DATES: The effective date of the waiver is December 31, 2013.

FOR FURTHER INFORMATION CONTACT: For questions about this notice, please contact Mr. Gerald Yakowenko, FHWA Office of Program Administration, (202) 366-1562, or via email at gerald.yakowenko@dot.gov. For legal questions, please contact Mr. Michael Harkins, FHWA Office of the Chief Counsel, (202) 366-4928, or via email at michael.harkins@dot.gov. Office hours for the FHWA are from 8:00 a.m. to 4:30 p.m., e.t., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Electronic Access

An electronic copy of this document may be downloaded from the **Federal Register’s** home page at: <http://www.archives.gov> and the Government Printing Office’s database at: <http://www.access.gpo.gov/nara>.

Background

The FHWA’s Buy America requirements at 23 U.S.C. 313 require a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid project. The statute also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding the FHWA’s finding that a partial Buy America waiver is appropriate for the obligation of Federal-aid funds for the purchase of 112 State requests regarding specific vehicle projects (including sedans, vans, pickups, SUVs, trucks, buses, and equipment, such as backhoes, street sweepers, and tractors and low emission locomotives).¹

In accordance with Division A, section 122 of the “Consolidated and Further Continuing Appropriations Act, 2012” (Pub. L. 112-284), the FHWA published a notice of intent to issue a waiver on its Web site for 112 State requests regarding specific vehicle projects (including sedans, vans, pickups, SUVs, trucks, buses, and equipment, such as backhoes, street sweepers, and tractors) (<http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=93>) on November 15th. The FHWA received 20 comments in response to the publication. No commenter objected to the waiver, and one commenter expressed concern regarding FHWA’s current process of approving a waiver for vehicle retrofit projects under the Congestion Mitigation Air Quality (CMAQ) Improvement Program. This commenter suggested that FHWA should make all diesel retrofit devices and components exempt from the Buy America requirements.

The FHWA appreciates the need to provide clear guidance concerning the application of Buy America requirements to vehicles and diesel engine retrofit projects; however, the issuance of guidance for that subject is outside of the scope of this Notice. The FHWA issued a **Federal Register** Notice and Request for Comment on various aspects of the Buy America requirements on July 10, 2013. The FHWA is currently evaluating all comments and assessing the need for additional guidance or clarification.

Based on all the information available to the agency, the FHWA concludes that

¹ See <http://www.fhwa.dot.gov/construction/contracts/cmaq131115.cfm>

there are no domestic manufacturers that could meet a 100 percent domestic steel and iron content for the 112 State requests regarding specific vehicle projects (including sedans, vans, pickups, SUVs, trucks, buses, and equipment, such as backhoes, street sweepers, and tractors and low emission locomotives).

The FHWA's Buy America requirement was initially established in 1983 when the acquisition of vehicles was not eligible for assistance under the Federal-aid highway program. As such, the FHWA's Buy America requirements were tailored to the types of products that are typically used in highway construction, which generally meet a 100 percent domestic steel and iron content requirement. Vehicles were not the types of products that were initially envisioned as being purchased with Federal-aid highway funds when Buy America was first enacted. In today's global industry, vehicles are assembled with components that are made all over the world. The FHWA is not aware of any vehicle on the market that can claim to incorporate 100 percent domestic steel and iron content. For instance, the Chevy Volt, which was identified by many commenters in a November 21, 2011, **Federal Register** Notice (76 FR 72027) as being a car that is made in the United States, comprises only 40 percent United States and Canada content according to the window sticker (http://www.cheersandgears.com/uploads/1298005091/med_gallery_51_113_449569.png). There is no indication of how much of this 40 percent United States/Canadian content is United States-made content. However, there is an indication on the window sticker concerning whether the Volt was assembled in the United States.

While the manufacture of steel and iron products that are typically used in highway construction (such as pipe, rebar, struts, and beams) generally refers to the various processes that go into actually making the entire product, the manufacture of vehicles typically refers to where the vehicle is assembled. Thus, given the inherent differences in the types of products that are typically used in highway construction and vehicles, we feel that simply waiving the Buy America requirement, which is based on the domestic content of the product, without any regard to where the vehicle is assembled would diminish the purpose of the Buy America requirement. Moreover, in today's economic environment, the Buy America requirement is especially significant in that it will ensure that Federal Highway Trust Fund (HTF)

dollars are used to support and create jobs in the United States.

While the FHWA has not located a vehicle that meets a 100 percent domestic iron and steel content requirement, the FHWA does not find that a complete waiver based on non-availability pursuant to 23 U.S.C. 313(b)(2) is appropriate. However, the FHWA also recognizes that at least a partial waiver is necessary in order to permit the State DOTs to proceed with the projects. The FHWA believes that a partial waiver that allows the public agencies to purchase vehicles so long as the final assembly of the vehicle as the end product occurs in the United States is appropriate. This approach is similar to the partial waivers previously given for various vehicle projects.

In conclusion, and in light of the above, pursuant to 23 U.S.C. 313(b)(1), the FHWA finds that it is in the public interest to grant a partial waiver from the general 100 percent domestic content requirement that applies to Federal-aid highway projects under Buy America. Under this partial waiver, however, the final assembly of any vehicles purchased with HTF funds must occur in the United States. Thus, so long as the final assembly of the 112 vehicle projects (including sedans, vans, pickups, SUVs, trucks, buses, and equipment, such as backhoes, street sweepers, and tractors) occurs in the United States, applicants to this waiver request may proceed to purchase these vehicles and equipment consistent with the Buy America requirement.

In accordance with the provisions of section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (Pub. L. 110-244, 122 Stat. 1572), the FHWA is providing this notice as its finding that a partial waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to the FHWA's Web site via the link provided to the waiver page noted above.

Authority: (Authority: 23 U.S.C. 313; Pub. L. 110-161, 23 CFR 635.410)

Issued on: December 23, 2013.

Victor M. Mendez,

Administrator.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA-2013-0002 (Notice No. 13-22)]

Information Collection Activities

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Requests (ICR) abstracted below will be forwarded to the Office of Management and Budget (OMB) for review and comments. The ICRs describe the nature of the information collections and their expected burden. A **Federal Register** Notice with a 60-day comment period soliciting comments on these collections of information was published in the **Federal Register** on October 25, 2013 [78 FR 64049] under Docket No. PHMSA-2013-0002 (Notice No. 13-14).

DATE: Interested persons are invited to submit comments on or before January 29, 2014.

ADDRESSES: Send comments regarding the burden estimate, including suggestions for reducing the burden, to the Office of Management and Budget (OMB), Attention: Desk Officer for PHMSA, 725 17th Street NW., Washington, DC 20503. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is most effective if OMB receives it within 30 days of publication.

Instructions: All submissions must include the agency name and docket number or Regulation Identification Number (RIN) for this notice. Internet users may access comments received by DOT at: <http://www.regulations.gov>. Note that comments received will be posted without change to: <http://>
