(4) Representations. In making representations about the energy efficiency of its refrigerated display merchandisers listed in paragraph (2), for compliance, marketing, or other purposes, Hussmann must fairly disclose the results of testing under the alternate test procedure specified in this waiver.

(5) This waiver amendment shall remain in effect from the date this Decision and Order is issued, consistent with the provisions of 10 CFR 431.401(g). DOE notes that it has published an amended test procedure for commercial refrigeration equipment. (77 FR 10292, Feb. 21, 2012). The amended test procedure addresses the testing issue addressed in this waiver, requiring products to be tested at their lowest application product temperature. Id. Use of the amended test procedure will be required on the compliance date of any amended standards for this equipment.

(6) This waiver is granted for only those models specifically set out in Hussmann’s petition, not future models that may be manufactured by Hussmann. Hussmann may submit a new or amended petition for waiver and request for grant of interim waiver, as appropriate, for additional models for which it seeks a waiver from the DOE test procedure. Grant of this waiver also does not release Hussmann from the certification requirements set forth at 10 CFR part 431.

(7) This waiver is issued on the condition that the statements, representations, and documentary materials provided by the petitioner are valid. DOE may revoke or modify this waiver at any time if it determines the factual basis underlying the petition for waiver is incorrect, or the results from the alternate test procedure are unrepresentative of the basic models’ true energy consumption characteristics.

Issued in Washington, DC, on December 23, 2013.

Kathleen B. Hogan,
Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.

[Docket No. CP14–29–000]

Texas Eastern Transmission, LP; Notice of Application

Take notice that on December 10, 2013 Texas Eastern Transmission, LP (Texas Eastern), at 5400 Westheimer Court, Houston, Texas 77056, filed an application in Docket No. CP14–29–000 pursuant to section 7(b) of the Natural Gas Act (NGA) and Part 157 of the Commission’s regulations to abandon in place and by sale certain pipeline facilities located in offshore Gulf of Mexico. Specifically, Texas Eastern proposes to abandon 29.82 miles of 20-inch diameter offshore lateral pipeline, designated as Line 41–A–6, consisting of 14.39 miles proposed for abandonment in place and 15.43 miles proposed for abandonment by sale. Texas Eastern states that there will be no termination or reduction in firm service to any existing customers after the proposed abandonment, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

This filing is accessible on-line at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC.

There is an “eSubscription” link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlinesupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Any questions regarding this application should be directed to Berk Donaldson, Director, Rates & Certificates, Texas Eastern Transmission, LP, P.O. Box 1642, Houston, Texas 77251, or by calling (713) 627-4488 (telephone), or fax (713) 627-5947, or email bdonaldson@spectraenergy.com.

Pursuant to section 157.9 of the Commission’s rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission’s public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission’s environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission’s environmental review process. Environmental commentors will not be
required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission’s final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: January 13, 2014.

Kimberly D. Bose,
Secretary.

[Docket No. EL14–16–000]

Newmont Nevada Energy Investment LLC v. Sierra Pacific Power Company; Notice of Complaints

Take notice that on December 23, 2013, pursuant to sections 206 and 306 of the Federal Power Act (FPA), 16 U.S.C. 824e, and 825e and Rule 206 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (Commission), 18 CFR 385.206, Newmont Nevada Energy Investment LLC (NNEI or Complainant) filed a formal complaint against Sierra Pacific Power Company (SPPC or Respondent), alleging that SPPC failed to comply with the terms, conditions, and implied covenants of the Interconnection and Operating Agreement; as amended between NNEI and SPPC, and has failed to pay for costs caused by changes made by SPPC, as more fully described in the complaint.

The Complainant certifies that copies of the Complaint were served on the contacts for the Respondents.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protesters parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent’s answer and all interventions, or protests must be filed on or before the comment date. The Respondent’s answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible online at http://www.ferc.gov, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERConlinesupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on January 13, 2014.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF14–4–000]

Paiute Pipeline Company; Notice of Intent To Prepare an Environmental Assessment for the Planned 2015 Elko Area Expansion Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the 2015 Elko Area Expansion Project (Elko Expansion Project or Project) involving construction and operation of facilities by Paiute Pipeline Company (Paiute) in Elko County, Nevada. The Commission will use this EA in its decision-making process to determine whether the Project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the Project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on January 22, 2014.

You may submit comments in written form or verbally. Further details on how to submit written comments are in the Public Participation section of this notice. In lieu of or in addition to sending written comments, the Commission invites you to attend the public scoping meeting scheduled as follows: FERC Public Scoping Meeting, 2015 Elko Area Expansion Project, January 14, 2014 at 6:00 p.m. Pacific Standard Time, Elko Convention Center, 700 Moren Way, Elko, Nevada 89801.

This public meeting is designed to provide you with more detailed information and another opportunity to offer your comments on the Project. Paiute representatives will be present one hour before the meeting (starting at 5:00 p.m.) to describe the Project, present maps, and answer questions. Interested groups and individuals are encouraged to attend the meeting and present comments on the issues they believe should be addressed in the EA. A transcript of the meeting will be made so that your comments will be accurately recorded.

This notice is being sent to the Commission’s current environmental mailing list for this Project. State and local government representatives should notify their constituents of this planned Project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the Project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled “An Interstate Natural Gas Facility On My Land? What Do I Need To Know?” is available for viewing on the FERC Web site (www.ferc.gov). This
