AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Intended Transfer of Confidential Business Information to Contractor, Subcontractors, and Consultants.

SUMMARY: The Environmental Protection Agency (EPA’s) has authorized Abt Associates, Inc. (Abt), its subcontractors, and its consultants to access confidential business information (CBI) collected from numerous industries. Transfer of this information is necessary for Abt to assist EPA in the preparation of effluent guidelines and standards for certain industries.

In accordance with 40 CFR § 2.302(h), we have determined that the contractors listed below require access to CBI submitted to EPA under Section 308 of the Clean Water Act (CWA) and in connection with other programs listed below. Therefore, we are providing notice and an opportunity to comment to the affected submitters of information. The nature of the work and its necessity, and the type of access granted, is described below for each contractor. Information has been provided to this contractor under a previous agreement since May 30, 2007.

Transfer of the information to Abt will allow the contractor and subcontractors to support EPA in the planning, development, and review of effluent limitations guidelines and standards under the CWA. The information being transferred was or will be collected under the authority of Section 308 of the CWA. Some information being transferred from the pulp, paper, and paperboard industry was collected under the additional authorities of Section 114 of the Clean Air Act and Section 3007 of the Resource Conservation and Recovery Act. that may be gathered in the future. The security plans specify that contractor personnel are required to sign non-disclosure agreements and are briefed on appropriate security procedures before they are permitted access to CBI. No person is automatically granted access to CBI: A need to know must exist.

The information that will be transferred to Abt consists of information previously collected by EPA to support the development and review of effluent limitations guidelines and standards under the CWA.
