SUPPLEMENTARY INFORMATION:

Proposed Project

Medical Expenditure Panel Survey—Insurance Component

Employer-sponsored health insurance is the source of coverage for 85 million current and former workers, plus many of their family members, and is a cornerstone of the U.S. health care system. The Medical Expenditure Panel Survey—Insurance Component (MEPS-IC) measures the extent, cost, and coverage of employer-sponsored health insurance on an annual basis. Statistics are produced at the National, State, and sub-State (metropolitan area) level for private industry. Statistics are also produced for State and Local governments. The MEPS-IC was last approved by OMB on November 21st, 2013 and will expire on November 30th, 2016. The OMB control number for the MEPS-IC is 0935-0110. All of the supporting documents for the current MEPS-IC can be downloaded from OMB's Web site at http://www.reginfo.gov/public/do/PRAViewDocument?ref_nbr=201310-0935-001.

In order to ensure that the MEPS-IC is able to capture important changes in the employer-sponsored health insurance market due to the implementation of the Patient Protection and Affordable Care Act (PPACA), AHRQ researched and proposed revisions to the 2014 survey questionnaires based on the law's provisions. Many of these proposed revisions were related to the implementation of the Small Business Health Options Program (SHOP) exchanges/marketplaces that are available to small employers for purchasing health insurance beginning in 2014.

The proposed revisions were sent to a variety of federal and private stakeholders to obtain their suggestions and comments. These stakeholders included the U.S. Department of Health and Human Services' Assistant
