The number of takes authorized for the stock would not change. The permit expires on June 1, 2017.

Based on the analyses in the EA, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on September 17, 2012. That EA and FONSI are available upon request. A new FONSI will be prepared for this action.

Concurrent with the publication of this notice in the Federal Register, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.
