

**Principle 10: Physical Deliveries**

An FMI should clearly state its obligations with respect to the delivery of physical instruments or commodities and should identify, monitor, and manage the risks associated with such physical deliveries.

**Principle 11: Central Securities Depositories**

A central securities depository should have appropriate rules and procedures to help ensure the integrity of securities issues and minimise and manage the risks associated with the safekeeping and transfer of securities. A central securities depository should maintain securities in an immobilised or dematerialised form for their transfer by book entry.

**Principle 12: Exchange-of-Value Settlement Systems**

If an FMI settles transactions that involve the settlement of two linked obligations (for example, securities or foreign exchange transactions), it should eliminate principal risk by conditioning the final settlement of one obligation upon the final settlement of the other.

**Principle 13: Participant-Default Rules and Procedures**

An FMI should have effective and clearly defined rules and procedures to manage a participant default. These rules and procedures should be designed to ensure that the FMI can take timely action to contain losses and liquidity pressures and continue to meet its obligations.

**Principle 14: Segregation and Portability**

A central counterparty should have rules and procedures that enable the segregation and portability of positions of a participant's customers and the collateral provided to the central counterparty with respect to those positions.

**Principle 15: General Business Risk**

An FMI should identify, monitor, and manage its general business risk and hold sufficient liquid net assets funded by equity to cover potential general business losses so that it can continue operations and services as a going concern if those losses materialise. Further, liquid net assets should at all times be sufficient to ensure a recovery or orderly wind-down of critical operations and services.

**Principle 16: Custody and Investment Risks**

An FMI should safeguard its own and its participants' assets and minimise the risk of loss on and delay in access to these assets. An FMI's investments should be in instruments with minimal credit, market, and liquidity risks.

**Principle 17: Operational Risk**

An FMI should identify the plausible sources of operational risk, both internal and external, and mitigate their impact through the use of appropriate systems, policies, procedures, and controls. Systems should be designed to ensure a high degree of security and operational reliability and should have adequate, scalable capacity. Business continuity management should aim for timely recovery of operations and fulfilment

of the FMI's obligations, including in the event of a wide-scale or major disruption.

**Principle 18: Access and Participation Requirements**

An FMI should have objective, risk-based, and publicly disclosed criteria for participation, which permit fair and open access.

**Principle 19: Tiered Participation Arrangements**

An FMI should identify, monitor, and manage the material risks to the FMI arising from tiered participation arrangements.

**Principle 20: FMI Links**

An FMI that establishes a link with one or more FMIs should identify, monitor, and manage link-related risks.

**Principle 21: Efficiency and Effectiveness**

An FMI should be efficient and effective in meeting the requirements of its participants and the markets it serves.

**Principle 22: Communication Procedures and Standards**

An FMI should use, or at a minimum accommodate, relevant internationally accepted communication procedures and standards in order to facilitate efficient payment, clearing, settlement, and recording.

**Principle 23: Disclosure of Rules, Key Procedures, and Market Data**

An FMI should have clear and comprehensive rules and procedures and should provide sufficient information to enable participants to have an accurate understanding of the risks, fees, and other material costs they incur by participating in the FMI. All relevant rules and key procedures should be publicly disclosed.

**Principle 24: Disclosure of Market Data by Trade Repositories**

A trade repository should provide timely and accurate data to relevant authorities and the public in line with their respective needs.

By order of the Board of Governors of the Federal Reserve System, January 10, 2014.

**SUPPLEMENTARY INFORMATION:** [OMB's Open Government Directive issued December 8, 2009, as M-10-06, instructs federal agencies, including GSA, to take specific actions to implement the principles of transparency, participation, and collaboration. More specifically, the directive asks agencies to expand access to information by making it available online in open formats. To comply with this initiative, certain GSA real property lease documents with private sector landlords will be posted on GSA's public online portal, with specific data elements being redacted to protect privacy, personal, and proprietary information as outlined under the Freedom of Information Act (FOIA) and the Privacy Act. As such, this notice describes typical data elements contained in these lease documents and their exemption status under the FOIA statute.]

GSA, the nation's largest public real estate organization, provides workspace

for more than 1.2 million federal workers through its Public Buildings Service. Approximately half of the employees are housed in buildings owned by the federal government and half are located in over 7,200 separate leased properties (in over 8,700 leases), including buildings, land, antenna sites,

etc., across the country. In order to comply with OMB's Open Government Directive issued December 8, 2009, as M-10-06, of transparency and openness in government, by posting certain GSA real property lease documents with private sector landlords on GSA's public online portal, GSA has identified

several data elements that are exempt from disclosure pursuant to FOIA under, 5 U.S.C. 552(b).

The following table contains a description of these data fields and their exempt status under FOIA:

**Agency Information Collection Activities; Proposed Collection; Public Comment Request**

**AGENCY:** Office of the Secretary, HHS.  
**ACTION:** Notice.

**SUMMARY:** In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, announces plans to submit a new Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting that ICR to OMB, OS seeks comments from the public regarding the burden estimate below or any other aspect of the ICR.

**DATES:** Comments on the ICR must be received on or before March 17, 2014.

**ADDRESSES:** Submit your comments to *Information.CollectionClearance@hhs.gov* or by calling (202) 690-6162.

**FOR FURTHER INFORMATION CONTACT:** Information Collection Clearance staff, *Information.CollectionClearance@hhs.gov* or (202) 690-6162.

**SUPPLEMENTARY INFORMATION:** When submitting comments or requesting information, please include the document identifier 21226-60D for reference.

Information Collection Request Title: ASPE Generic Clearance for the Collection of Qualitative Research and Assessment.

**Abstract:** The Office of the Assistant Secretary for Planning and Evaluation (ASPE) is requesting a generic clearance from the OMB for purposes of conducting qualitative research. ASPE conducts qualitative research to gain a better understanding of emerging health policy issues, develop future intramural and extramural research projects, and to ensure HHS leadership, agencies and offices have recent data and information to inform program and policy decision-making.

**Need and Proposed Use of the Information:** ASPE's mission is to advise the Secretary of the Department of Health and Human Services on policy development in health, disability, human services, data, and science, and provides advice and analysis on economic policy. ASPE leads special initiatives, coordinates the Department's evaluation, research and demonstration activities, and manages cross-Department planning activities such as

strategic planning, legislative planning, and review of regulations. Integral to this role, ASPE conducts research and evaluation studies, develops policy analyses, and estimates the cost and benefits of policy alternatives for HHS related programs.

The goal of developing these activities is to identify emerging policy issues and research gaps to ensure the successful implementation of HHS programs.

**Likely Respondents:** Policy experts, national, state and local health representatives, healthcare providers, and representatives of other health organizations.

**Burden Statement:** Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Interviews, focus groups, questionnaires and other qualitative methods .....	747	1	1	747

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information

technology to minimize the information collection burden.
