SECURITIES AND EXCHANGE COMMISSION

Sunshine Act Meetings

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Public Law 94-409, that the Securities and Exchange Commission will hold an Open Meeting on Wednesday, January 22, 2014 at 10 a.m., in the Auditorium, Room L-002.

The subject matter of the Open Meeting will be:

The Commission will consider whether to approve the 2014 budget of the Public Company Accounting Oversight Board and will consider the related annual accounting support fee for the Board under Section 109 of the Sarbanes-Oxley Act of 2002.

At times, changes in Commission priorities require alterations in the scheduling of meeting items.

For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: The Office of the Secretary at (202) 551-5400.

Dated: January 15, 2014.

Elizabeth M. Murphy,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-71218; File No. SR-CME-2013-24]

Self-Regulatory Organizations; Chicago Mercantile Exchange Inc.; Order Approving Proposed Rule Change Regarding the Designation of a Primary Backup Data Center

December 31, 2013.

I. Introduction

On November 15, 2013, Chicago Mercantile Exchange Inc. ("CME") filed with the Securities and Exchange Commission ("Commission") the proposed rule change (SR-CME-2013-24) pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder.² The proposed rule change was

published for comment in the **Federal Register** on November 27, 2013.³ The Commission received no comment letters regarding the proposal. For the reasons discussed below, the Commission is granting approval of the proposed rule change.

II. Description

CME is proposing to activate its New York Data Center ("1NE Data Center") as its primary backup data center. The 1NE Data Center currently operates in part as a tertiary data center for CME. CME has proposed that the 1NE Data Center will be redesigned and will become the primary backup data center in place of CME's current backup data center, the Remote Data Center ("RDC"). In addition to housing CME's New York trading floor and office staff systems, the 1NE Data Center will house CME's primary back-up for electronic trading, clearing, and regulatory infrastructures. CME has stated that because the 1NE Data Center will be located in a distinct geographic area from CME's primary facility, the proposal to relocate the primary backup data facility will mitigate risks associated with a large scale disruption associated with only one geographical area (for example, a weather event). Because the 1NE Data Center will feature single IP connectivity, CME's customers will not have to change their configurations or take any additional steps to connect to the 1NE Data Center and the risk of disruptions in connectivity will be decreased.

CME has stated that the proposal will help to ensure that CME has sufficient physical, technological and personnel resources to enable the timely recovery and resumption of operations following disruptions, resulting in an increase in reliability and security of its backup data facilities. The proposed change does not involve any changes to CME's rulebook.

III. Discussion and Commission Findings

Section 19(b)(2)(C) of the Act⁴ directs the Commission to approve a proposed rule change of a self-regulatory organization if the Commission finds that such proposed rule change is consistent with the requirements of the Act⁵ and the rules and regulations thereunder applicable to such self-regulatory organization. Section 17A(b)(3)(F) of the Act⁶ requires, among

³ Securities Exchange Act Release No. 34-70917 (November 21, 2013), 78 FR 71015 (November 27, 2013).

⁴ 15 U.S.C. 78s(b)(2)(C).

⁵ 15 U.S.C. 78s(b)(1).

⁶ 15 U.S.C. 78q-1(b)(3)(F).

other things, that the rules of a clearing agency are designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivative agreements, contracts, and transactions, to assure the safeguarding of securities and funds which are in the custody or control of the clearing agency and for which it is responsible and, in general, to protect investors and the public interest. The Commission finds that the proposed rule change is designed to enhance CME's business continuity program and data reliability and security and thereby (1) promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivatives agreements, contracts, and transactions; (2) help to assure the safeguarding of securities and funds which are in the custody or control of CME; and (3) help to protect investors and the public interest, consistent with the requirements of Section 17A(b)(3)(F) of the Act.⁷

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the Act⁸ and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,⁹ that the proposed rule change (File No. SR-CME-2013-24) be, and hereby is, approved.¹⁰

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Elizabeth M. Murphy,

Secretary.

BILLING CODE 8011-01-P

DEPARTMENT OF STATE

[Public Notice 8598]

Applications: NuStar Logistics, LP; Presidential Permit

AGENCY: Department of State.

ACTION: Notice of Receipt of an Application by NuStar Logistics, L.P., for Issuance of a Presidential Permit To Connect, Operate and Maintain Existing Pipeline Facilities on the Border of the United States and Mexico.

SUMMARY: Notice is hereby given that the Department of State (Department) has received from NuStar Logistics, L.P. ("NuStar") an application to amend the 2003 Presidential Permit issued to Valero Logistics Operations L.P. to construct, connect, operate, and maintain pipeline facilities (the "Dos Laredos Pipeline") crossing the international border between the United States and Mexico at a location on the Rio Grande river known as "la Bota",

approximately six miles northwest of downtown Laredo, Texas. The application indicates that Valero Logistics Operations, L.P. has changed its name to NuStar Logistics, L.P., and requests that the amended permit reflect the partnership's current name. While the 2003 Presidential Permit only authorized the transportation of liquefied petroleum gas ("LPG"), NuStar seeks an amendment now to authorize the transport of LPG and petroleum products, including diesel.

NuStar Logistics, L.P., a Delaware limited partnership, is a subsidiary of NuStar Energy L.P., a publicly traded, limited partnership based in San Antonio, Texas.

The Dos Laredos Pipeline is an 8 5/8 inch outer diameter pipeline that connects the NuStar terminal in Laredo, Texas, with a terminal in Nuevo Laredo, Tamaulipas, Mexico. The U.S. portion of Dos Laredos Pipeline consists of approximately 10.6 miles of pipeline from the NuStar terminal in Laredo, Texas to a location on the Rio Grande known as "La Bota," approximately 6 miles northwest of Laredo.

The 2003 Presidential Permit permits the transportation of LPG. NuStar now requests authorization to transport LPG and petroleum products, including diesel.

NuStar stated that no significant physical changes to the pipeline would be required to transport petroleum products, and it is not proposing any new construction in the United States (aside from maintaining existing pipeline facilities). The Department of State will determine what kind of environmental documentation, if any, is appropriate for this proposed project.

Under E.O. 13337 the Secretary of State is designated and empowered to receive all applications for Presidential Permits for the construction, connection, operation, or maintenance at the borders of the United States, of facilities for the exportation or importation of liquid petroleum, petroleum products, or other fuels (except natural gas) to or from a foreign country. The Department of State will circulate this application to concerned federal agencies for comment. The Department of State has the responsibility to determine whether issuance of a new or amended Presidential Permit based upon NuStar's application would serve the U.S. national interest. The Department will issue a **Federal Register** notice later inviting public comment on whether issuance of the requested amended Presidential Permit would serve the national interest.
