## POSTAL SERVICE

### Privacy Act of 1974; System of Records

**AGENCY:** Postal Service™.

**ACTION:** Notice of modification to existing systems of records.

**SUMMARY:** The United States Postal Service® is proposing to modify two Customer Privacy Act Systems of Records. These updates are being made to account for additional communication methods that the Postal Service will use to contact customers with regard to the delivery of their mail and packages.

**DATES:** These revisions will become effective without further notice on February 20, 2014 unless comments received on or before that date result in a contrary determination.

**ADDRESSES:** Comments may be mailed or delivered to the Records Office, United States Postal Service, 475 L'Enfant Plaza SW., Room 9431, Washington, DC 20260-1101. Copies of all written comments will be available at this address for public inspection and photocopying between 8 a.m. and 4 p.m., Monday through Friday.

**FOR FURTHER INFORMATION CONTACT:** Matthew J. Connolly, Chief Privacy Officer, Privacy and Records Office, 202-268-8582.

**SUPPLEMENTARY INFORMATION:** This notice is in accordance with the Privacy Act requirement that agencies publish their amended systems of records in the **Federal Register** when there is a revision, change, or addition. The Postal

Service™ has reviewed these systems of records and has determined that this General Privacy Act System of Records should be revised to modify categories of records in the system, purpose(s), and system manager(s) and address.

### I. Background

To improve mail delivery and customer service, the Postal Service is enhancing current services to allow for customer notification upon delivery, and introducing new services and options that will enable customers to designate a specific location for the delivery of their mail and packages.

### II. Rationale for Changes to USPS Privacy Act Systems of Records

The systems of records 820.200, Mail Management and Tracking Activity, and 880.000, Post Office and Retail Services, are being modified to account for the collection of a customer's text message number. The Postal Service will use the text message number to notify Collect On Delivery customers that their mail is ready to be delivered, to communicate with Package Intercept™ customers to re-route mail deliveries as requested, and to confirm that a package has been delivered to the specific locations requested by customers who use the forthcoming Electronically Authorize Shipment Release feature. The Postal Service also proposes to amend the purposes of each SOR to include providing customers with mail or package delivery options.

The Postal Service is also updating and deleting system manager titles to reflect the current structure of the organization.

### III. Description of Changes to Systems of Records

The Postal Service is modifying two systems of records listed below. Pursuant to 5 U.S.C. 552a (e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed modifications has been sent to Congress and to the Office of Management and Budget for their evaluation. The Postal Service does not expect this amended notice to have any adverse effect on individual privacy rights. The affected systems are as follows:

USPS 820.200  
SYSTEM NAME: Mail Management and Tracking Activity  
USPS 880.000  
SYSTEM NAME: Post Office and Retail Services

Accordingly, for the reasons stated, the Postal Service proposes changes in the existing systems of records as follows:

Schedule TO; OMB Control No. 3235-  
0515; SEC File No. 270-456

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget ("OMB") for extension and approval.

Schedule TO (17 CFR 240.14d-100) must be filed by a reporting company that makes a tender offer for its own securities. Also, persons other than the reporting company making a tender offer for equity securities registered under Section 12 of the Exchange Act (15 U.S.C. 78l) (which offer, if consummated, would cause that person to own over 5% of that class of the securities) must file Schedule TO. The purpose of Schedule TO is to improve communications between public companies and investors before companies file registration statements involving tender offer statements. Schedule TO takes approximately 43.5 hours per response and is filed by approximately 820 issuers annually. We estimate that 50% of the 43.5 hours per response (21.75 hours) is prepared by the issuer for an annual reporting burden of 17,835 hours (21.75 hours per response × 820 responses).

Written comments are invited on: (a) Whether this collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden imposed by the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Please direct your written comment to Thomas Bayer, Director/Chief Information Officer, Securities and Exchange Commission, c/o Remi Pavlik-Simon, 100 F Street NE., Washington, DC 20549 or send an email to: [PRA\\_Mailbox@sec.gov](mailto:PRA_Mailbox@sec.gov).

Form S-4 takes approximately 4,099.68 hours per response to prepare and is filed by 619 registrants annually.
