II. Background

In a petition for rulemaking dated April 15, 2013 (ADAMS Accession No. ML13113A443), the petitioner requested that the NRC expand its "regulatory framework to make it a legal obligation for those non-licensees who seek NRC regulatory approvals to be held to the same legal standards for the submittal of complete and accurate information as would a licensee or an applicant for a license." The original submittal addressed part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," and 10 CFR part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants." On June 10, 2013 (78 FR 34604), the

NRC published a notice in the **Federal Register** requesting public comments on the petitioner's original submittal. The comment period closed on August 26, 2013. On September 16, 2013 (ADAMS Accession No. ML13261A190), the petitioner submitted a supplement that expanded the scope of his petition to address 10 CFR part 30, "Rules of General Applicability to Domestic Licensing of Byproduct Material;" 10 CFR part 40, "Domestic Licensing of Source Material;" 10 CFR part 60, "Disposal of High-Level Radioactive Wastes in Geological Repositories;" 10 CFR part 61, "Licensing Requirements for Land Disposal of Radioactive Waste;" 10 CFR part 63, "Disposal of High-Level Radioactive Waste in A Geologic Repository At Yucca Mountain, Nevada;" 10 CFR part 70, "Domestic Licensing of Special Nuclear Material;" 10 CFR part 71, "Packaging and Transportation of Radioactive Material;" and 10 CFR part 72, "Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater Than Class C Waste."

III. Request for Comment

Dated at Rockville, Maryland, this 10th day of January 2014.

For the Nuclear Regulatory Commission.

SUPPLEMENTARY INFORMATION:

I. Background

Bank holding companies (BHCs) and their subsidiaries engage in certain types of physical commodities activities under a variety of authorities. As explained below, financial holding companies (FHCs) are permitted to engage in a limited amount of physical commodity trading activity that the Board has determined to be complementary to various financial activities in accordance with section 4(k)(1)(B) of the Bank Holding Company Act (BHC Act). In addition, section 4(k)(4)(H) authorizes BHCs to make merchant banking investments in any type of nonfinancial company, including a company engaged in activities involving physical commodities. In the Gramm-Leach-Bliley Act (GLB Act), Congress also authorized several companies to continue to engage in a broad range of physical commodity activities under specific grandfathering authority after these firms became BHCs.¹

In the past several years, BHCs have expanded their reliance on these authorities to increase their activities involving physical commodity trading and some securities firms that engaged in substantial physical commodity activities were acquired by or became BHCs. During the same period, there have been a variety of events and developments involving physical commodity activities that suggest that the risks of conducting these activities are changing and the steps that firms

¹ In addition, national banks owned by BHCs may engage in certain limited types of physical commodity activities under authority granted under the National Bank Act. State-chartered banks also may be authorized to engage in the same activities under state statutes.
