

SUPPLEMENTARY INFORMATION: We publish this notice in compliance with the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.*), and its implementing regulations (40 CFR 1506.6). The Service, in conjunction with our cooperating agencies prepared this DEIS for the Ballville Dam Project with the intent to address the environmental, economic, cultural and historical, and safety issues associated with the proposed removal of the dam and a suite of alternatives.

Ballville Dam is currently a complete barrier to upstream fish passage and impedes hydrologic processes. The purpose for the issuance of federal funds and preparation of this Draft EIS are to restore natural hydrological processes over a 40-mile stretch of the Sandusky River, re-open fish passage to 22 miles of new habitat, restore flow conditions for fish access to new habitat above the impoundment, and improve overall conditions for native fish communities in the Sandusky River system both upstream and downstream of the Ballville Dam, restoring self-sustaining fish resources.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties.

Alternatives in the DEIS

The DEIS contains an analysis of four alternatives: (1) Proposed Action—Incremental Dam Removal with Ice Control Structure; (2) No Federal Action; (3) Fish Elevator Structure; and (4) Dam Removal with Ice Control Structure. The DEIS considers the direct, indirect, and cumulative effects of the alternatives, including any measures under the Proposed Action alternative intended to minimize and mitigate such impacts. The DEIS also identifies additional alternatives that were considered but were eliminated from consideration as detailed in Section 2.3 of the DEIS.

Public Comments

The Service requests data, comments, new information, or suggestions from the public, concerned governmental agencies, the scientific community, tribes, industry, or any other interested party on this notice.

In particular, information and comments regarding the following topics are requested:

1. The direct, indirect, or cumulative effects that implementation of any alternative could have on the human environment;

2. Whether or not the significance of the impact on various aspects of the human environment has been adequately analyzed; and

3. Any other information pertinent to evaluating the effects of the proposed action on the human environment.

You may submit your comments and materials considering this notice by one of the methods listed in the **ADDRESSES** section.

Public Availability of Comments

All comments and materials we receive in response to this request will be available for public inspection, by appointment, during normal business hours at the address listed in the **ADDRESSES** section of this notice.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Background

Ballville Dam was built in 1913 for hydroelectric power generation. The City of Fremont purchased the dam in 1959 from the Ohio Power Company for the purpose of supplying raw water to the city. With the construction of a raw water reservoir, the dam is no longer required for this purpose. In 2007, the ODNR issued a Notice of Violation (NOV) to the City, stating that the dam was being operated in violation of the law as a result of its deteriorated condition.

Ballville Dam is currently a complete barrier to upstream fish passage and impedes hydrologic processes. An improved river flow regime with open access to substantially more habitat should increase the abundance of virtually all species, and likely species diversity as well, when compared to present conditions both above and below Ballville Dam.

Authority

This notice is being furnished as provided for by NEPA and its implementing Regulations (40 CFR 1501.7 and 1508.22). The intent of the

notice is to obtain suggestions and additional information from other agencies and the public on the DEIS. Comments and participation in this process are solicited.

Todd Turner,

Assistant Regional Director, Fisheries, Midwest Region.

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of teleconference.

SUMMARY: The North American Wetlands Conservation Council (Council) will meet via telephone to select North American Wetlands Conservation Act (NAWCA) grant proposals for recommendation to the Migratory Bird Conservation Commission (Commission). This teleconference is open to the public, and interested persons may present oral or written statements.

DATES: *Council:* The teleconference is scheduled for February 4, 2014, from 1 p.m. to 4:30 p.m. If you are interested in presenting information, contact the Council Coordinator no later than January 27, 2014.

ADDRESSES: Because this is a conference call, there is no meeting venue. Participants should call the toll-free number 877-951-7596; when prompted, enter participant passcode 9469306.

FOR FURTHER INFORMATION CONTACT: Cynthia Perry, Council Coordinator, by phone at 703-358-2432; by email at dbhc@fws.gov; or by U.S. mail at U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, MBSP 4075, Arlington, VA 22203.

SUPPLEMENTARY INFORMATION:

Background

In accordance with NAWCA (Pub. L. 101-233, 103 Stat. 1968, December 13, 1989, as amended), the State-private-Federal Council meets to consider wetland acquisition, restoration, enhancement, and management projects for recommendation to, and final funding approval by, the Commission. Project proposal due dates, application instructions, and eligibility

requirements are available on the NAWCA Web site at <http://www.fws.gov/birdhabitat/Grants/NAWCA>.

Proposals require a minimum of 50 percent non-Federal matching funds. If you are interested in presenting information or submitting questions for this public meeting, contact the Council Coordinator no later than January 27, 2014.

Grant Programs

U.S. Small Grants Program

The Small Grants Program is a competitive matching grants program that supports public-private partnerships carrying out projects in the United States that further the goals of NAWCA. These projects must involve long-term protection, restoration, and/or enhancement of wetlands and associated uplands habitats for the benefit of all wetlands-associated migratory birds. This program supports the same type of projects and adheres to the same selection criteria and administrative guidelines as the U.S. Standard Grants Program. However, project activities are usually smaller in scope and involve fewer project dollars. Grant requests may not exceed \$75,000, and funding priority is given to grantees or partners new to the NAWCA Grants Program.

The Canada Standard Grants Program is a matching grants program that supports public-private partnerships carrying out wetlands conservation projects in Canada. Their projects contribute to a comprehensive, programmatic approach towards furthering the goals of NAWCA. Project activities involve the long-term conservation of wetlands and associated upland habitats for the benefit of waterfowl and all wetland-associated migratory birds.

Project proposal due dates, application instructions, and eligibility requirements are available on the NAWCA Web site at <http://www.fws.gov/birdhabitat/Grants/NAWCA>.

If you are interested in presenting information or submitting questions for this public meeting, contact the Council Coordinator no later than January 27, 2014.

Meeting

The Council will consider U.S. small grant proposals and Canada grant proposals at the meeting. The Commission will consider the Council's recommendations at its meeting scheduled for March 26, 2014.

Public Input

If you wish to:	You must contact the Council Coordinator (see FOR FURTHER INFORMATION CONTACT) no later than
(1) Listen to the Council meeting. (2) Submit written information or questions before the Council meeting for consideration during the meeting.	February 3, 2014. January 27, 2014.

Submitting Written Information or Questions

Interested members of the public may submit relevant information or questions for the Council to consider during the public meeting. If you wish to submit a written statement, so that the information may be made available to the Council for their consideration prior to this meeting, you must contact the Council Coordinator by the date above. Written statements must be supplied to the Council Coordinator in both of the following formats: One hard copy with original signature, and one electronic copy via email (acceptable file formats are Adobe Acrobat PDF, MS Word, MS PowerPoint, or rich text file).
