appropriate documents and submit the completed request to the USPTO.

The USPTO database of official tribal insignias provides evidence of what a federally or state-recognized Native American tribe considers to be its official insignia. The database thereby assists trademark examining attorneys in their examination of applications for trademark registration by serving as a reference for determining the registrability of a mark that may falsely suggest a connection to the official insignia of a Native American tribe. The entry of an official insignia into the database does not confer any rights to the tribe that submitted the insignia, and entry is not the legal equivalent of registering the insignia as a trademark under 15 U.S.C. 1051 et seq.

This information collection is used by the USPTO to enter an official insignia submitted by a federally or state-recognized Native American tribe into the database. There are no forms associated with this collection.

Affected Public: Tribal governments.
Frequency: On occasion.
Respondent’s Obligation: Required to obtain or retain benefits.

SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information is required by the Trademark Act, 15 U.S.C. 1051 et seq., which provides for the federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use such marks, or intend to use such marks, in interstate commerce may file an application to register their marks with the United States Patent and Trademark Office (USPTO). In some cases, the USPTO issues Office Actions to applicants who have applied for a trademark application, requesting additional information that was not provided with the initial submission but is required before the issuance of a registration. Also, the USPTO may determine that a mark is not entitled to registration, pursuant to one or more provisions of the Trademark Act. In such cases, the USPTO will issue an Office Action advising the applicant of the refusal to register the mark. Applicants reply to these Office Actions by providing the required information and/or by putting forth legal arguments as to why the refusal of registration should be withdrawn.

The USPTO administers the Trademark Act through Chapter 37 of the Code of Federal Regulations. These rules allow the USPTO to request and receive information required to process applications. These rules also allow applicants to submit certain amendments to their applications. Applicants may also supplement their applications and provide further information by filing a Voluntary Amendment Not in Response to USPTO Office Action/Letter, a Request for Reconsideration after Final Office Action, a Post-Publication Amendment, a Petition to Amend Basis Post-Publication, and a Suspension Inquiry or Letter of Suspension, or by submitting a Substitute Trademark/ Servicemark, Substitute Certification Mark, or Substitute Collective Membership Mark application. Thus, this collection includes information that was not submitted with the initial application and is needed by the USPTO to review applications for trademark registration.

II. Method of Collection

The forms in this collection are available in electronic format through the Trademark Electronic Application System (TEAS), which may be accessed on the USPTO Web site. TEAS Global Forms are available for the items where a TEAS form with dedicated data fields is not yet available. Applicants may also submit the information in paper form by mail, fax, or hand delivery.
