impact (FONSI) for this action. The FONSI, which is based on the environmental assessment (EA) prepared for the rulemaking that led to our July 2013 final rule, documents our conclusion that the importation of kumquats from Uruguay under the conditions prescribed in our July 2013 final rule, including treatment in accordance with the PPQ Treatment Manual, will not have a significant impact on the quality of the human environment.

The EA and FONSI were prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

After reviewing the comments we receive, we will announce our decision regarding the new treatment schedule that is described in the TED in a subsequent notice, in accordance with paragraph (b)(3) of § 305.3. If we do not receive any comments, or the comments we receive do not change our determination that the treatment is effective, we will affirm the treatment schedule's addition to the PPQ Treatment Manual and make available a new version of the PPQ Treatment Manual in which T101-n-3 is listed in the main body of the manual. If we receive comments that lead us to determine that T101-n-3 needs to be changed or removed, we will make available a new version of the PPQ Treatment Manual that reflects the changes to or the removal of treatment schedule T101-n-3.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Conflict of Interest Disclosure for Nonfederal Government Individuals Who Are Candidates to Conduct Peer Reviews.

OMB Control Number: 0648–0567.

Form Number(s): NA.

Type of Request: Regular submission (revision and extension of a current information collection)

Number of Respondents: 321.

Average Hours per Response: 30 minutes.

Burden Hours: 161.

Needs and Uses: This request is for revision and extension of a currently approved collection.

The Office of Management and Budget (OMB) issued government-wide guidance to enhance the practice of peer review of government science documents. OMB's Final Information Quality Bulletin for Peer Review (''Peer Review Bulletin'' or PRB) (available at *http://www.whitehouse.gov/omb/memoranda/fy2005/m05–03.pdf*) establishes minimum peer review standards for influential scientific information that Federal agencies intend to disseminate.

The Peer Review Bulletin also directs Federal agencies to adopt or adapt the National Academy of Sciences (NAS) policy for evaluating conflicts of interest when selecting peer reviewers who are not Federal government employees (federal employees are subject to Federal ethics requirements). For peer review purposes, the term ''conflicts of interest'' means any financial or other interest which conflicts with the service of the individual because it could: (1) significantly impair the individual's objectivity; or (2) create an unfair competitive advantage for any person or organization. NOAA has adapted the NAS policy and developed two confidential conflict disclosure forms which the agency will use to examine prospective reviewers' potential financial conflicts and other interests that could impair objectivity or create an unfair advantage. One form is for peer reviewers of studies related to government regulation and the other form is for all other influential scientific information subject to the Peer Review Bulletin. The forms include questions about employment as well as investment and property interests and research funding. Curriculum vitae are also required. The information collected in the conflict of interest disclosure is essential to NOAA's compliance with the OMB PRB, and helps to ensure that government studies are reviewed by independent, impartial peer reviewers.

Revision: the form adapted from the general scientific and technical studies form, for Oceanic and Atmospheric Research (OAR) laboratory reviewers has not been used, and will be removed from the collection; OAR continues to use the previously existing form.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: OIRA_Submission@omb.eop.gov.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482–0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at *JJessup@doc.gov*).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@omb.eop.gov*.

Dated: January 24, 2014.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

U.S. Census Bureau

Proposed Information Collection; Comment Request; State and Local Government Finance Forms

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: To ensure consideration, written comments must be submitted on or before March 31, 2014.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at *jjessup@doc.gov*).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Jeff Barnett, Chief, Local Government Finance and Statistics Branch, Governments Division, U.S. Bureau of the Census, Washington, DC 20233–6800 (301–763–2787 or *Jeffrey.L.Barnett@census.gov*).

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to request clearance for the forms necessary to conduct the public finance program, which consists of an annual collection of information and a quinquennial collection in the census years ending in ''2'' and ''7''. During the upcoming three years, we intend to conduct the 2014 through 2016 Annual Surveys of State and Local Government Finances.

The Annual Surveys of State and Local Government Finances collect data on state government finances and estimates of local government revenue, expenditure, debt, assets, and pension systems nationally and within state areas. The surveys include the Annual Survey of State Government Finances, the Annual Survey of Local Government Finances, and the Annual Survey of Public Pensions. Data are collected for all agencies, departments, and institutions of the fifty state governments and for a sample of all local governments (counties, municipalities, townships, and special districts). Data for school districts are collected under a separate survey. In the census year, equivalent data are collected from all local governments.

The Census Bureau is exploring the possibility of reducing the number and content of items collected on survey forms of local government finances in the intercensal years. The reduction in form item collection will reduce respondent burden as well as reduce the time needed to edit, analyze, and disseminate data for the Annual Survey of Local Government Finances. Any final decisions on form revisions will be included in the formal clearance package submitted to the Office of Management and Budget after the comment period associated with this notice has ended. In addition, any reduction in form item collection occurring in 2014–2016 will be restored in the next quinquennial Census of Governments in 2017.

The Census Bureau provides these data to the Bureau of Economic Analysis to develop the public sector components of the National Income and Product Accounts and to the Federal Reserve Board for use in the Flow of Funds Accounts. Other Federal agencies that make use of the data include the Council of Economic Advisors, the Government Accountability Office, and the Department of Justice. Other users include state and local governments and related organizations, public policy groups, researchers, and private sector businesses.

Statistics are produced as data files in electronic formats. The program has collected comprehensive and comparable governmental statistics since 1957.

II. Method of Collection

These surveys use multiple modes for data collection including Internet collection, mail canvass, telephone, and central collection. Canvass methodology primarily consists of a mail out/mail back questionnaire and Internet data collection. Other methods used to collect data and maximize response include collecting state and local government data through submitted financial audits, state financial reports, and comprehensive financial reports.

The Census Bureau developed central collection agreements with state and large local government officials to collect the data from their dependent agencies and report to the Census Bureau as a central respondent. These arrangements eliminate the need for a mail canvass of approximately 4,000
