

(LPMS) Waterway Traffic Report; ENG 3102c and ENG 3102d; OMB Control Number 0710-0008.

Type of Request: Extension.

Number of Respondents: 6,529.

Responses per Respondent: 93.

Annual Responses: 607,197.

Average Burden per Response: 2.6 minutes.

Annual Burden Hours: 26,311.87 hours.

Needs and Uses: The U.S. Army Corps of Engineers utilizes the data collected to monitor and analyze the use and operation of federally owned and operated locks. General data of vessel identification, tonnage and commodities are supplied by the master of vessels at all locks owned and operated by the U.S. Army Corps of Engineers. The information is used for sizing and scheduling replacements, the timing of rehabilitation or maintenance actions, and the setting of operation procedures and closures for locks and canals.

Affected Public: Business or other for-profit.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Mr. Jim Laity.

Written comments and recommendations on the proposed information collection should be sent to Mr. Jim Laity at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503.

You may also submit comments, identified by docket number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Ms. Patricia Toppings.

Written requests for copies of the information collection proposal should be sent to Ms. Toppings at WHS/ESD Information Management Division, 4800 Mark Center Drive, East Tower, Suite 02G09, Alexandria, VA 22350-3100.

Dated: January 27, 2014.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[Docket ID: USA-2014-0001]

Proposed Collection; Comment Request

AGENCY: Department of the Army, DoD.

ACTION: Notice.

SUMMARY: In compliance with Section 3506(c)(2)(A) of the *Paperwork Reduction Act of 1995*, the Department of the Army announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by March 31, 2014.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* Federal Docket Management System Office, 4800 Mark Center Drive, East Tower, Suite 02G09, Alexandria, VA 22350-3100.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the U.S. Army ROTC Cadet Command, ATTN: ATCC-01, 55 Patch Road, Building 56, Fort Monroe, VA 23651-1052, or call Department of the Army Reports Clearance Officer at 703-428-6440.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Army ROTC Referral Information, ROTC Form 155-R, OMB Control Number 0702-0111.

Needs and Uses: The Army ROTC Program produces approximately 75 percent of the newly commissioned officers for the U.S. Army. The Army ROTC must have the ability to attract quality men and women who will pursue college degrees. Currently, there are 13 recruiting teams (Goldminers) located in various places across the United States aiding in this cause. Their mission is to refer quality high school students to colleges and universities offering Army ROTC. Goldminers, two officer personnel, will collect ROTC referral information at a high school campus and document it on ROTC Cadet Command Form 155-R.

Affected Public: Individuals or households.

Annual Burden Hours: 4,075.

Number of Respondents: 16,300.

Responses Per Respondent: 1.

Average Burden Per Response: 15 minutes.

Frequency: On occasion.

The purpose of the information is to provide prospect referral data to a Professor of Military Science to contact individuals who have expressed an interest in Army ROTC. If Goldminers did not collect referral information, we would suffer a negative impact on the recruiting effort and subsequent commissioning of new officers for the U.S. Army.

Dated: January 27, 2014.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Notice of Availability for Exclusive, Non-Exclusive, or Partially-Exclusive Licensing of an Invention Concerning Spray Foam Splint

AGENCY: Department of the Army, DoD.

ACTION: Notice.

SUMMARY: Announcement is made of the availability for licensing of the invention set forth in U.S. Patent Application Serial No. 13/988,260, entitled "Spray Foam Splint," filed on August 16, 2013. The United States Government, as represented by the Secretary of the Army, has rights to this invention.

ADDRESSES: Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Frederick, MD 21702-5012.

FOR FURTHER INFORMATION CONTACT: For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7808. For licensing issues, Dr. Paul Mele, Office of Research and Technology Applications (ORTA), (301) 619-6664, both at telefax (301) 619-5034.

SUPPLEMENTARY INFORMATION: The invention relates to orthopedic splinting materials and methods for stabilizing an injured limb or extremity and allowing the foam to set to sufficient rigidity.

Brenda S. Bowen,
Army Federal Register Liaison Officer.

Notice of Availability for Exclusive, Non-Exclusive, or Partially-Exclusive Licensing of an Invention Concerning Methods of Treating Amniotic Membranes and Compositions and Apparatuses Prepared Therein

AGENCY: Department of the Army, DoD.

ACTION: Notice.

SUMMARY: Announcement is made of the availability for licensing of the invention set forth in U.S. Patent Application Serial No. 13/815,827, entitled "Methods of Treating Amniotic Membranes and Compositions and Apparatuses Prepared Therein," filed on March 15, 2013. The United States Government, as represented by the Secretary of the Army, has rights to this invention.

ADDRESSES: Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Frederick, MD 21702-5012.

FOR FURTHER INFORMATION CONTACT: For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7808. For licensing issues, Dr. Paul Mele, Office of Research and Technology Applications (ORTA), (301) 619-6664, both at telefax (301) 619-5034.

SUPPLEMENTARY INFORMATION: The invention relates to a method of

sterilizing compositions prepared from amniotic membrane tissues.

Department of the Army

Record of Decision for the Conversion of an Armor Brigade Combat Team to a Stryker Brigade Combat Team at Fort Carson, CO

AGENCY: Department of the Army, DoD.
ACTION: Notice of availability.

SUMMARY: The Department of the Army announces the availability of the Record of Decision (ROD) to convert an Armor Brigade Combat Team (BCT) to a Stryker BCT at Fort Carson, Colorado. The Deputy Chief of Staff of the Army, G-3/5/7 has reviewed the 2008 Final Environmental Impact Statement for the Permanent Stationing of the 2/25th Stryker Brigade Combat Team (2008 EIS), and has determined that the EIS adequately evaluated the potential environmental and socioeconomic effects associated with this conversion, and that no supplementation of the EIS is required. The ROD explains that the Army will expand on the decision made in 2008 to meet the changed needs of the Army and adjust to constantly evolving mission requirements, and discusses the potential environmental and socioeconomic impacts associated with the Stryker BCT conversion.

ADDRESSES: The ROD can be obtained from <http://aec.army.mil/Services/Support/NEPA/Documents.aspx>. Written requests for a copy of the ROD should be addressed to: U.S. Army Environmental Command, Public Affairs Office, 2450 Connell Road (Building 2264), JBSA Fort Sam Houston, TX 78234-7664.

FOR FURTHER INFORMATION CONTACT: Public Affairs Office, U.S. Army Environmental Command, at (210) 466-1590 or by email at USARMY.JBSA.AEX.MBX@mail.mil.

SUPPLEMENTARY INFORMATION: The Army announced on June 25, 2013 that it was reducing the number of Active Army BCTs from 45 to 33 over the next several years. As this overall reduction occurs, the Army will have to rebalance the remaining BCTs to retain the required mix of Infantry, Armor, and Stryker BCTs.

Under Alternative C of the 2008 EIS, the Stryker BCT would have replaced

the 4th BCT, 4th Infantry Division—an Infantry BCT at Fort Carson. Instead of replacing an Infantry BCT with a Stryker BCT, this decision converts an Armor BCT to a Stryker BCT. The ROD, which incorporates the 2008 EIS by reference, discusses the minor differences in equipment and training between the two scenarios and why the 2008 analysis is adequate to support this decision.

The potential environmental and socioeconomic impacts of stationing a Stryker BCT at Fort Carson were analyzed in the 2008 EIS and addressed for both Fort Carson and Piñon Canyon Maneuver Site (PCMS). At Fort Carson, the 2008 EIS identified significant impacts in the areas of soil erosion, wildfire management, and air quality. At PCMS, the EIS found significant impacts could occur in the areas of soil erosion, wildfire management, and cultural resources.

Because this action coincides with the inactivation of another BCT, the net number of Soldiers training at Fort Carson and PCMS will be less than anticipated in the 2008 EIS. The action also replaces M1 tanks and Bradley Fighting Vehicles (BFVs) with lighter Stryker combat vehicles. In addition, no construction will be required for this action at either Fort Carson or PCMS. This means that the significant impacts predicted for Fort Carson and PCMS in the 2008 EIS will not be likely to occur. Site-specific National Environmental Policy Act (NEPA) analysis on implementing this stationing decision will be prepared for both Fort Carson and PCMS.

It is important to note that this action will not require any expansion of PCMS.

All practicable means to avoid or minimize environmental harm identified in the 2008 EIS for the alternative of stationing the Stryker BCT at Fort Carson will be adopted, unless different measures are developed and identified in the site-specific NEPA documents.

This action reduces heavy vehicle maneuver use at Fort Carson. The Stryker vehicles use less fuel than the M1 tanks and BFVs they are replacing. These factors will likely reduce dust and air pollution.

Brenda S. Bowen,
Army Federal Register Liaison Officer.
