ECOspensible, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On October 24, 2013, ECOspensible, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Setting Pole Rapids Dam Hydro Project (project) to be located on the Raquette River, in Franklin County, New York, near the Town of Tupper Lake, New York. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) Installing three RivGen™ Turbine Generator Units with a total installed capacity of 1,487 kilowatts below Setting Pole Rapids Dam in the Raquette River; (2) a shore power station housing two inverters to convert direct current to alternating current; (3) an overhead 1,450-foot-long, 46.1-kilovolt (kV) transmission line extending from the project to the interconnection with National Grid; and (4) appurtenant facilities. The estimated annual generation of the Setting Pole Rapids Dam Hydro Project would be 10,420 megawatt-hours.
