SUPPLEMENTARY INFORMATION: On April 9, 2013, notice was published in the *Federal Register* (78 FR 21113) that a request for a permit to conduct research on the species identified above had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The permit authorizes the level A and B harassment of humpback whales during photo-identification, behavioral follows, and surface and underwater observations in Hawaii, Alaska, and California. The applicant will approach up to 1,047 humpback whales in Hawaii, 630 in Alaska and 480 in California each year. Short-term, non-invasive, suction cup tagging of maternal females will be conducted within Hawaiian waters to document nocturnal behaviors and fine-scale movements and in Californian waters to better understand use of waters around the Santa Barbara Channel and Channel Islands (Anacapa, Santa Cruz and Santa Rosa Islands). Twelve tags would be deployed annually in both Hawaii and California. The purpose of the proposed research is to identify and define critical habitat used by maternal female

humpback whales and their calves, across the period from infancy to maturity and independence. Opportunistic research on Pacific white-sided dolphins (*Lagenorhynchus obliquidens*), Risso's dolphins (*Grampus griseus*), Dall's porpoise (*Phocoenoides dalli*), blue whales (*Balaenoptera musculus*), killer whales (*Orcinus orca*), minke whales (*B. acutorostrata*), spinner dolphins (*Stenella longirostris*), bottlenose dolphins (*Tursiops truncatus*), and false killer whales (*Pseudorca crassidens*) may also be conducted. Incidental harassment of Steller (*Eumetopias jubatus*) and California sea lions (*Zalophus californianus*) would also occur. The permit is valid for five years from the date of issuance.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

SUPPLEMENTARY INFORMATION:**Additions**

On 11/29/2013 (78 FR 71582-71583) and 12/6/2013 (78 FR 73504), the Committee for Purchase From People Who Are Blind or Severely Disabled published notices of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and services and impact of the additions on the current or most recent contractors, the Committee has determined that the products and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 8501-8506 and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the products and services to the Government.

2. The action will result in authorizing small entities to furnish the products and services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501-8506) in connection with the products and
