Submission for OMB Review; Comment Request

February 4, 2014.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@omb.eop.gov* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food and Nutrition Service

Title: Supplemental Nutrition Assistance Program: State Issuance and Participation Estimates—Forms FNS-388 and FNS-388A.

OMB Control Number: 0584-0081.

Summary of Collection: Section 18(b) of Food and Nutrition Act, (the Act) 7 U.S.C. 2027(b), limits the value of allotments paid to SNAP households to an amount not in excess of the appropriation for the fiscal year. Timely State monthly issuance estimates are necessary for the Food and Nutrition Service (FNS) to ensure that it remains within the appropriation and will have a direct effect upon the manner in which allotments would be reduced if necessary. While benefit reductions have never been ordered in the past under Section 18(b) nor are they anticipated based on current data, the Department must continue to monitor actual program costs against the appropriation.

Need and Use of the Information: FNS uses the FNS-388 report to obtain monthly estimated or actual issuance and participation data for the current and previous months. The FNS-388 is being updated to include separate reporting of Disaster SNAP benefit issuance and participation data which will improve data accountability and ensure data is available on a monthly basis for timely response to Federal, State and other inquiries. In addition, State agencies are required to submit a project area breakdown on the FNS-388, of issuance and participation data twice a year. The project area breakdown attached to the FNS-388, twice a year is known as the FNS-388A. This data is useful in identifying project areas that operate fraud detection units in accordance with the Act.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 53.

Frequency of Responses: Recordkeeping; Reporting: Monthly; semi-annually.

Total Burden Hours: 5,187.

Forest Service

Title: Financial Information Security Request Form.

OMB Control Number: 0596-0204.

Summary of Collection: The majority of Forest Service's (FS) financial records are in databases stored at the National Finance Center (NFC). The Federal Information Security Reform Act of 2002 (Pub. L. 107-347) and Information Technology Management Reform Act of 1996 (Pub. L. 104-106) authorize the Forest Service to obtain information necessary for contracted employees to access and maintain these records.

Need and Use of the Information: The Forest Service uses a paper and electronic version of its form FS-6500-214 to gather name, work email, work telephone number, job title etc. for a specific contracted employee to apply to NFC for access. Prior to filling out the form, contractors must first complete specific training before a user may request access to certain financial systems. NFC grants access to users only at the request of Client Security Officers. The unit's Client Security Officer is responsible for management of access to computers and coordinates all requests for NFC. The information collected is shared with those managing or overseeing the financial systems used by the FS, this includes auditors.

Description of Respondents: Contracted employees.

Number of Respondents: 415.

Frequency of Responses: Reporting: Yearly.

Total Burden Hours: 1,132.

SUPPLEMENTARY INFORMATION:

Title: Johne's Disease.

OMB Control Number: 0579-0338.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the U.S. Department of Agriculture's (USDA's) Animal and Plant Health Inspection Service (APHIS) is authorized, among other things, to prevent the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases and pests from the United States when feasible. In support of this mission, APHIS' Veterinary Services (VS) prohibits or restricts the interstate movement of livestock that have, or have been exposed to, certain diseases.

Johne's disease, also known as paratuberculosis, is caused by *Mycobacterium avium* subspecies paratuberculosis and primarily affects cattle, sheep, goats, and other domestic, exotic, and wild ruminants. The disease is a chronic and contagious enteritis that

results in progressive wasting and eventual death. It is nearly always introduced into a healthy herd by an infected animal that is not showing symptoms of the disease.

The regulations in 9 CFR, chapter I, subchapter C, govern the interstate movement of animals to prevent the dissemination of livestock and poultry diseases in the United States. Subchapter C, part 71, contains general provisions for the interstate movement of animals, poultry, and their products, while part 80 pertains specifically to the interstate movement of domestic animals that are positive to an official test for Johne's disease. These regulations provide that cattle, sheep, goats, and other domestic animals that are positive to an official test for Johne's disease may generally be moved interstate only to a recognized slaughtering establishment or to an approved livestock facility for sale to such an establishment. They may also be moved for purposes other than slaughter under certain conditions.

APHIS previously supplemented these regulations with standards outlined in the document, "Uniform Program Standards for the Voluntary Bovine Johne's Disease Control Program" (VBJDCP). However, in 2012, APHIS discontinued the VBJDCP and States began conducting their own Johne's disease monitoring programs and using their own forms rather than those required by APHIS and previously approved by the Office of Management and Budget (OMB) under OMB control number 0579-0338. As a result, APHIS has revised the information collection activities for the Johne's disease program to only require a USDA-APHIS VS Permit for Movement of Restricted Animals (VS Form 1-27) and official ear tags.

Due to the reduction in the number of forms required by APHIS, the estimated annual number of respondents has decreased from 9,125 to 3, the estimated annual number of responses has decreased from 66,105 to 6, and the estimated total annual burden on respondents has decreased from 38,187 hours to 3 hours.

We are asking OMB to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the
