

worldwide and the field of use may be limited to the pre-clinical evaluation and commercial development of human therapeutics for liver cancer and ovarian cancer within the scope of the Licensed Patent Rights. Upon expiration or termination of the exclusive evaluation option license, METHEOR will have the right to execute a start-up exclusive patent commercialization license which will supersede and replace the exclusive evaluation option license with no broader field of use and territory than granted in the exclusive evaluation option license.

DATES: Only written comments and/or applications for a license which are received by the NIH Office of Technology Transfer on or before March 5, 2014 will be considered.

ADDRESSES: Requests for copies of the patent application, inquiries, comments, and other materials relating to the contemplated exclusive evaluation option license should be directed to: Sabarni K. Chatterjee, Ph.D., M.B.A. Licensing and Patenting Manager, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852-3804; Telephone: (301) 435-5587; Facsimile: (301) 402-0220; Email: chatterjeesa@mail.nih.gov.

SUPPLEMENTARY INFORMATION: The present inventions relate to a potent inhibitor of DNA methylation (Zebularine) that can specifically reactivate silenced tumor suppressor genes. This agent can be used to inhibit methylation and thereby combat certain cancers that have been linked to hypermethylation. This agent has also been shown in initial animal testing to be active orally and is more stable than some other agents in this same area of therapy and is a suitable candidate for further pre-clinical and clinical development as an anti-cancer agent to be used as monotherapy and/or as an adjunct to existing anti-cancer therapeutics.

METHEOR has indicated its interest in developing Zebularine as novel epigenetic modifiers and drugs for oncologic indications. Pre-clinical research and clinical development will primarily focus on determining the safety and efficacy of the lead compound for liver and ovarian cancers.

The prospective exclusive evaluation option license is being considered under the small business initiative launched on October 1, 2011 and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR part 404. The prospective exclusive evaluation option license, and a subsequent exclusive patent commercialization license, may

be granted unless within fifteen (15) days from the date of this published notice, the NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.

Any additional, properly filed, and complete applications for a license in the field of use filed in response to this notice will be treated as objections to the grant of the contemplated exclusive evaluation option license. Comments and objections submitted to this notice will not be made available for public inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

SUPPLEMENTARY INFORMATION: The Flood Disaster Protection Act of 1973 (Act), as amended, 42 U.S.C. 4001 *et seq.*, recognized that a reasonable method of sharing the nation's risk of flooding at the national level was required. The Act established a requirement to purchase flood insurance for properties at risk from a flood. It also further provided an exception to this requirement for State-owned properties that are covered under an adequate State policy of self-

insurance. When States provide proof of this self-insurance, the designated property is not required to be covered by flood insurance. Title 44 CFR part 75 establishes the procedures by which a State may request exemption and also establishes standards with respect to the Administrator's determinations that a State's plan of self-insurance is adequate and satisfactory for the purpose of exempting the State from the requirement of purchasing flood insurance coverage, for State-owned structures and their contents. This applies to areas identified by the Administrator as A, AO, AH, A1-30, AE, AR, AR/A1-30, AR/AE, AR/AO, AR/AH, AR/A, A99, M, V, VO, V1-30, VE, and E zones, in which the sale of insurance has been made available.
