[Docket No. EL14-29-000]

New York Association of Public Power (Complainant) v. Niagara Mohawk Power Corporation, The New York Independent System, Operator, Inc. (Respondents); Notice of Complaint

Take notice that on February 6, 2014, pursuant to section 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206 and section 206 of the Federal Power Act, 16 U.S.C. 824(e), the New York Association of Public Power (NYAPP) filed a formal complaint against Niagara Mohawk Power Corporation (NMPC) and The New York Independent System Operator, Inc. (NYISO) alleging that, NMPC's use of an 11.5 percent return on common equity (ROE) in calculating rates for transmission services under the NYISO's Open Access Transmission Tariff (OATT) rate is unjust and unreasonable. NYAPP requests the Commission issue an order to reduce the 11.5 percent ROE used in calculating rates for transmission service under the NYISO's OATT to a just and reasonable level of 9.46 percent, inclusive of a 50 basis point adder for participation in the NYISO, with a corresponding overall weighted cost of capital of 6.60 percent.

The NYAPP certifies that copies of the complaint were served on the contacts of NMPC and the NYISO as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

[Project No. 12613-004]

Tygart LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380, the Office of Energy Projects has reviewed the application for an original license for the proposed 30-megawatt (MW) Tygart Hydroelectric Project to be located on the Tygart River in Taylor County, West Virginia, at the U.S. Army Corps of Engineers' (Corps) Tygart Dam and has prepared an environmental assessment (EA).

In the EA, Commission staff analyzes the potential environmental effects of licensing the project and concludes that issuing a license for the construction and operation of the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on
