Notice of Information Collection**AGENCY:** National Aeronautics and Space Administration (NASA).**ACTION:** Notice of information collection.**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.**DATES:** All comments should be submitted within 60 calendar days from the date of this publication.**ADDRESSES:** All comments should be addressed to Frances Teel, National Aeronautics and Space Administration, Washington, DC 20546-0001.**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Frances Teel, NASA PRA Officer, NASA Headquarters, 300 E Street SW., JF0000, Washington, DC 20546, (202) 358-2225.**SUPPLEMENTARY INFORMATION:****I. Abstract**

The KEEP is a job shadowing program designed to provide students with career exploration opportunities under the mentorship of a NASA Kennedy Space Center (KSC) subject matter expert. Participation in the program is limited to students who are U.S. citizens and 16 years or older. Interested students will submit a job shadowing application package, which includes recommendations from two separate science, math, or technology teachers associated with their current school of enrollment and designation of their top three choices for the job shadowing experience to include but not limited to biomedical, chemistry, computer science, engineering, meteorology, and physics. Students may request a shadowing opportunity for a period of 1-5 days. This information collection renewal includes updates to the application package for clarity and comprehensibility.

NSF provides nearly 20 percent of federal funding for basic research to academic institutions.¹ Within NSF, the Directorate for Engineering (ENG) has primary responsibility for promoting the progress of engineering in the United States in order to enable the Nation's capacity to perform. Its investments in engineering research and education aim to build and strengthen a national capacity for innovation that can lead over time to the creation of new shared wealth and a better quality of life. Most NSF programs in engineering are funded through the Directorate for Engineering, which also sponsors the NSF's Industrial Innovation and Partnerships (IIP) Division. To these ends, ENG
