SUPPLEMENTARY INFORMATION: This investigation was instituted on October 30, 2012, based upon a complaint filed by Avago Technologies Fiber IP (Singapore) Pte. Ltd. of Singapore; Avago Technologies General IP (Singapore) Pte. Ltd. of Singapore; and Avago Technologies U.S. Inc. of San Jose, California (collectively, “Complainants”), alleging a violation of section 337 of the Tariff Act of 1930, as amended, (19 U.S.C. 1337) in the importation, sale for importation, or sale within the United States after importation of certain optoelectronic devices for fiber optic communications, components thereof, and products containing the same by reason of infringement of certain claims of U.S. Patent Nos. 6,947,456 (“the ‘456 patent”) and 5,596,595 (“the ‘595 patent”). 77 FR 65713 (October 30, 2012). The Commission named IPtronics A/S of Roskilde, Denmark; IPtronics Inc. of Menlo Park, California; FCI USA, LLC, of Etters, Pennsylvania; FCI Deutschland GmbH of Berlin, Germany; FCI SA of Guyancourt, France; Mellanox Technologies, Inc. of Sunnyvale, California; and Mellanox Technologies Ltd. of Yokneam, Israel (collectively, “Respondents”) as respondents. The Commission also named the Office of Unfair Import Investigations as a party in this investigation.

The final ID on violation was issued on December 13, 2013. The ALJ issued his recommended determination on remedy, the public interest and bonding on the same day. The ALJ found that a violation of section 337 has occurred in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain optoelectronic devices for fiber optic communications, components thereof, and products containing the same by reason of infringement of certain claims of the ‘595 patent. All the parties to this investigation filed timely petitions for review of various portions of the final ID, as well as timely responses to the petitions. The ALJ recommended that the Commission issue a limited exclusion order directed to Respondents’ accused products that infringe the ‘595 patent. The ALJ also recommended that the Commission issue a cease and desist order against the Mellanox and FCI respondents.

On January 15, 2014, Complainants filed a post-RD statement on the public

interest pursuant to Commission Rule 201.50(a)(4). On the same day, respondents Mellanox Technologies, Inc. and Mellanox Technologies, Ltd. also filed a submission pursuant to the rule. No responses from the public were received in response to the post-RD Commission Notice issued on December 16, 2013. See Notice of Request for Statements on the Public Interest (Dec. 16, 2013).

Having examined the record in this investigation, including the ALJ’s final ID, the petitions for review, and the responses thereto, the Commission has determined to review the ID in part. In particular, the Commission has determined as follows:

(I) With respect to the ‘595 patent:

(a) To review the ALJ’s claim construction of the limitation “current-spreading layer” and infringement and domestic industry (technical prong) determinations relating to that limitation;

(b) to review the ALJ’s determinations with respect to whether Complainants met the economic prong of the domestic industry requirement under subsections 337(a)(3)(A), 337(a)(3)(B), or 337(a)(3)(C).

(II) With respect to the ‘456 patent:

(a) To review the ALJ’s claim construction, infringement, and domestic industry (technical prong) determinations;

(b) to review the ALJ’s determinations with respect to whether Complainants met the economic prong of the domestic industry requirement under subsections 337(a)(3)(A), 337(a)(3)(B), or 337(a)(3)(C).

The parties are requested to brief their positions on only the following issues, with reference to the applicable law and the evidentiary record:

(1) With respect to the ID’s determination regarding the economic prong of the domestic industry requirement with respect to both asserted patents in this investigation, discuss whether Complainants are permitted to rely upon their research and development investments to satisfy the requirements under section 337(a)(3)(A) and (B) or whether such investments are only applicable to establishing a domestic industry under section 337(a)(3)(C). Explain all relevant statutory provisions, case law, and Commission precedent pertaining to this issue. See ID at 201.

(2) With respect to the ‘595 patent, discuss Complainants’ investments in research and development attributed to their products relied upon for satisfying the economic prong of the domestic industry requirements as compared to their complete QSFP product line.
