

between the cities of King Cove and Cold Bay, including air and marine routes, would continue to operate and be developed.

Alternative 2—Land Exchange and Southern Road Alignment

Alternative 2 proposed a land exchange between the Federal Government, the State of Alaska, and the King Cove Corporation that would result in a road/road corridor through Izembek Refuge and Izembek Wilderness. Under the proposed land exchange, approximately 201 acres of federal land (surface and subsurface estate) of the Izembek Refuge and Izembek Wilderness as well as 1,600 acres (surface and subsurface estate) within the Alaska Maritime National Wildlife Refuge on Sitkinak Island would be conveyed to the State of Alaska. In exchange, the Service would receive approximately 43,093 acres of land owned by the State of Alaska (to be designated wilderness), as well as approximately 13,300 acres of land owned by King Cove Corporation. In addition, the King Cove Corporation would relinquish 5,430 acres of selected lands within the Izembek Refuge and Izembek Wilderness boundary. The proposed road/road corridor would be located approximately 1/2 mile to 1 mile north of Kinzarof Lagoon.

Alternative 3—Land Exchange and Central Road Alignment

Alternative 3 proposed a land exchange between the Federal Government, the State of Alaska, and the King Cove Corporation that would result in a road/road corridor through Izembek Refuge and Izembek Wilderness. Under the proposed land exchange, approximately 227 acres of federal land (surface and subsurface estate) of the Izembek Refuge and Izembek Wilderness as well as 1,600 acres (surface and subsurface estate) within the Alaska Maritime National Wildlife Refuge on Sitkinak Island would be conveyed to the State of Alaska. In exchange, the Service would receive approximately 43,093 acres of land owned by the State of Alaska (to be designated wilderness), as well as approximately 13,300 acres of land owned by King Cove Corporation. In addition, the King Cove Corporation would relinquish 5,430 acres of selected lands within the Izembek Refuge and Izembek Wilderness boundary. The proposed road/road corridor would be located more centrally within the Izembek isthmus approximately 1 to 1 1/2 mile north of Kinzarof lagoon and 1/2 to 1 mile south of Izembek Lagoon.

Alternative 4—Hovercraft Operations From the Northeast Terminal to Cross Wind Cove

Alternative 4 proposed operation of a hovercraft service 6 days per week to provide access between the communities of King Cove and Cold Bay, running between the Northeast Terminal and Cross Wind Cove. A land exchange was not considered under this alternative.

Alternative 5—Lenard Harbor Ferry With Cold Bay Dock Improvements

Alternative 5 proposed use of a ferry to provide access between King Cove and Cold Bay that would travel 14 miles between a terminal in Lenard Harbor to a substantially modified Cold Bay dock. Under this alternative, ferry service would be provided 6 days per week and a land exchange would not occur.

Factors We Considered in Decisionmaking

We based our decision on a thorough analysis of the effects to the human environment, including environmental, social, and economic considerations found in the Final EIS. We have evaluated the effects of proposed roads through Izembek Refuge and Izembek Wilderness in numerous analyses since 1960, including the 1985 Comprehensive Conservation Plan and through the completion of the current EIS. We have consistently found that the impacts of building a proposed road on the wildlife resources, habitats, and designated Wilderness would create irreversible change and damage to a unique and ecologically important area, and especially to designated Wilderness. The no action alternative selected in the ROD supports the continued management of the Izembek Refuge consistent with the purposes for which it was established.

Decision: After a thorough review of the potential environmental, social, and economic consequences of all alternatives evaluated in the Final EIS, we selected Alternative 1, the No Action Alternative. Selecting Alternative 1 preserves the integrity of the Izembek National Wildlife Refuge and Izembek Wilderness, ensures the continued protection of unique and internationally recognized habitats, and maintains the integrity of designated Wilderness.
