

included in the Public Comment Resolution Report (ADAMS Accession No. ML13249A337). In addition, the report was reviewed by the NRC Advisory Committee on Reactor Safeguards Subcommittee on Radiation Protection and Nuclear Materials and by the full Advisory Committee on Reactor Safeguards (ACRS). The responses to comments from these two committees are included in the ACRS Comment Resolution Report (ADAMS Accession No. ML13249A340). The final NUREG incorporates changes to address public and ACRS comments.

The risks associated with SNF transportation come from the radiation that the spent fuel emits, which is reduced—but not eliminated—by the transportation cask's shielding, and from the possibility of the release of some quantity of radioactive material during a severe accident. This NUREG shows that the risk from radiation emitted from the cask is a small fraction of naturally occurring background radiation, and that the risk from accidental release of radioactive material is several orders of magnitude less. Because there have been only minor changes to the radioactive material transportation regulations between NRC's original transportation risk assessment NUREG-0170, (ADAMS Accession No. ML022590355, 1977) and this risk assessment, the calculated dose due to the radiation from the cask under routine transport conditions is similar to what was found earlier. The improved analysis tools and techniques, improved data availability, and a reduction in the number of conservative assumptions has made the estimate of accident risk from the release of radioactive material in this study approximately five orders of magnitude less than what was estimated in NUREG-0170.

The results in NUREG-2125 demonstrate that the NRC's regulations in Part 71 of Title 10 of the *Code of Federal Regulations*, "Packaging and Transportation of Radioactive Material" continue to provide adequate protection of public health and safety during the transportation of SNF.

Dated at Rockville, Maryland, this 10th day of February 2014.

For the Nuclear Regulatory Commission.

Joseph Donoghue,

Acting Chief, Inspections, and Operations Branch, Division of Spent Fuel Storage and Transportation, Office of Nuclear Material Safety and Safeguards.

This notice informs the public of PBGC's intent and solicits public comment on the collection of information.

DATES: Comments must be submitted by April 22, 2014.

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the Web site instructions for submitting comments.

- *Email:* paperwork.comments@pbgc.gov.

- *Fax:* 202-326-4224.

- *Mail or Hand Delivery:* Regulatory Affairs Group, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street NW., Washington, DC 20005-4026.

PBGC will make all comments available on its Web site at <http://www.pbgc.gov>.

(TTY and TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4040.)

FOR FURTHER INFORMATION CONTACT:

Grace Kraemer, Attorney, or Catherine B. Klion, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street NW., Washington, DC 20005-4026; 202-326-4024. (TTY and TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: The Employee Retirement Income Security Act of 1974 (ERISA) contains three separate sets of provisions—in Title I (Labor provisions), Title II (Internal Revenue Code provisions), and Title IV (PBGC provisions)—requiring administrators of employee benefit pension and welfare plans (collectively referred to as employee benefit plans) to file returns or reports annually with the federal government.

PBGC, the Department of Labor (DOL), and the Internal Revenue Service (IRS) work together to produce the Form 5500 Annual Return/Report for Employee Benefit Plan and Form 5500-SF Short Form Annual Return/Report for Small Employee Benefit Plan (Form 5500 Series), through which the regulated public can satisfy the combined reporting/filing requirements applicable to employee benefit plans.

The collection of information has been approved by OMB under control number 1212-0057 through April 30, 2014. PBGC intends to request that OMB extend its approval for another three years, with modifications. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC is proposing a few modifications to the Schedule MB (Multiemployer Defined Benefit Plan Actuarial Information) and the Schedule SB (Single Employer Defined Benefit Plan Actuarial Information) and related instructions. The proposed modifications to the Schedule MB would require plan administrators of multiemployer defined benefit plans to specify the documentation required regarding progress under the applicable funding improvement or rehabilitation plan. Plan administrators of multiemployer plans in critical status would be required to provide information about the plan year in which the plan is projected to emerge from critical status and, if the rehabilitation plan is based on forestalling possible insolvency, the plan year in which insolvency is expected. The proposed modifications to the Schedule SB would require plan administrators of single-employer defined benefit plans to report the funding target (vested and total) for each type of participant (active, retired, terminated vested).

PBGC estimates that it will receive approximately 30,300 Form 5500 and Form 5500-SF filings per year under this collection of information. PBGC further estimates that the total annual

burden of this collection of information will be 1,200 hours and \$1,250,000.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Issued in Washington, DC, this 18th day of February, 2014.

Judith Starr,

General Counsel, Pension Benefit Guaranty Corporation.

The Line traverses United States Postal Service Zip Codes 95961 and 95901.

UP has certified that no local or overhead traffic has moved over the Line for at least two years and that no formal complaint filed by a user of rail service on the Line (or filed by a state or local government entity acting on behalf of such user) regarding cessation of service over the Line is pending either with the Surface Transportation Board (Board) or any U.S. District Court or has been decided in favor of complainant within the two-year period. UP further has certified that the requirements of 49 CFR 1105.12 (newspaper publication) and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) to subsidize continued rail service has been received, this exemption will be effective on March 25, 2014, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues and

formal expressions of intent to file an OFA to subsidize continued rail service under 49 CFR 1152.27(c)(2)¹ must be filed by March 3, 2014.² Petitions to reopen must be filed by March 13, 2014, with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001.
