

OSHA, not less than nine months, or no more than one year, before the expiration date of its current recognition. A renewal request includes a request for renewal and any additional information the NRTL wishes to submit to demonstrate its continued compliance with the terms of its recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL's headquarters and key sites within the past 18 to 24 months, it will schedule the necessary on-site assessments prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces its preliminary decision to grant or deny renewal in the **Federal Register** and solicit comments from the public. OSHA then publishes a final **Federal Register** notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

FM initially received OSHA recognition as an NRTL on June 13, 1988, and referenced in a **Federal Register** notice dated March 29, 1995 (60 FR 16167). The most recent renewal for FM was on September 12, 2001, for a five-year period expiring on September 12, 2006. FM submitted a timely request for renewal, dated November 5, 2005 (see Ex. OSHA-2007-0041-0004), and retains its recognition pending OSHA's final decision in this renewal process. The current addresses of FM facilities recognized by OSHA and included as part of the renewal request are:

1. FM Norwood, 1151 Boston-Providence Turnpike, Norwood, Massachusetts 02062; and
2. FM West Gloucester, 743 Reynolds Road, West Gloucester, Rhode Island 02814.

II. Notice of Preliminary Findings

OSHA is providing notice that FM is applying for renewal of its current recognition as a NRTL. This renewal covers FM's existing NRTL scope of recognition. OSHA evaluated FM's application for renewal and preliminarily determined that FM can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition. Accordingly, OSHA is making a determination that it does not need to conduct an on-site review of FM's facilities based on its evaluations of FM's application and all other available information. This information includes OSHA's most recent audit of FM's facilities conducted on October 24-26, 2012, August 17-19, 2009, and August 5-6, 2008. The auditors found

some non-conformances with the requirements of 29 CFR 1910.7. FM addressed these issues sufficiently to meet the applicable NRTL requirements. This preliminary finding does not constitute an interim or temporary approval of the application.

OSHA welcomes public comment as to whether FM meets the requirements of 29 CFR 1910.7 for renewal of their recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. OSHA must receive the written request for an extension by the due date for comments. OSHA will limit any extension to 30 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in FM's application and other pertinent documents (including exhibits), as well as all submitted comments, contact the Docket Office, Room N-2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2007-0041.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend whether to grant FM's application for renewal. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7. OSHA will publish a public notice of this final decision in the **Federal Register**.

III. Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on February 19, 2014.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.

SUPPLEMENTARY INFORMATION:

I. Background

OSHA recognition of an NRTL signifies that the organization meets the requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational Web site for each NRTL that details its scope of recognition available at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

The Agency processes applications by an NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, App. II.C. In accordance with these procedures, NRTLs submit a renewal request to

OSHA, not less than nine months or no more than one year, before the expiration date of its current recognition. A renewal request includes a request for renewal and any additional information the NRTL wishes to submit to demonstrate its continued compliance with the terms of its recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL's headquarters and key sites within the past 18 to 24 months, it will schedule the necessary on-site assessments prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces its preliminary decision to grant or deny renewal in the **Federal Register** and solicit comments from the public. OSHA then publishes a final **Federal Register** notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

CSA initially received OSHA recognition as an NRTL on December 24, 1992 (57 FR 61452). CSA's most recent renewal was on July 3, 2001, for a five-year period ending on July 3, 2006. CSA submitted a timely request for renewal, dated October 3, 2005 (see Ex. OSHA-2006-0042-0002), and retains its recognition pending OSHA's final decision in this renewal process. The current addresses of CSA facilities recognized by OSHA and included as part of the renewal request are:

1. CSA Toronto, 178 Rexdale Boulevard, Etobicoke, Ontario, Canada M9W 1R3;
2. CSA International Montreal, 865 Ellingham Street, Pointe-Claire, Quebec, Canada H9R 5E8;
3. CSA International Irvine, 2805 Barranca Parkway, Irvine, California 92606;
4. CSA International Edmonton, 1707-94th Street, Edmonton, Alberta, Canada T6N 1E6;
5. CSA International Vancouver, 13799 Commerce Parkway, Richmond, British Columbia, Canada V6V 2N9; and
6. CSA International Cleveland, 8501 East Pleasant Valley Road, Cleveland, Ohio, 44131.

II. Notice of Preliminary Findings

OSHA is providing notice that CSA is applying for renewal of its current recognition as an NRTL. This renewal covers CSA's existing NRTL scope of recognition. OSHA evaluated CSA's application for renewal and preliminarily determined that CSA can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition. Accordingly, OSHA is

making a determination that it does not need to conduct an on-site review of CSA's facilities based on its evaluations of CSA's application and all other available information. This information includes OSHA's most recent audit of CSA's headquarters, CSA Toronto, conducted on March 24-25, 2011, in which the auditors found some non-conformances with the requirements of 29 CFR 1910.7. CSA addressed these issues sufficiently to meet the applicable NRTL requirements.

OSHA staff also performed an audit of the CSA Montreal site on March 21-22, 2011; of the CSA Edmonton site on September 23-24, 2009; and of the CSA Vancouver site on August 21-22, 2013. The auditors found some non-conformances with the requirements of 29 CFR 1910.7. CSA has addressed these issues sufficiently to meet the applicable NRTL requirements. This preliminary finding does not constitute an interim or temporary approval of the application.

OSHA welcomes public comment as to whether CSA meets the requirements of 29 CFR 1910.7 for renewal of their recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. OSHA must receive the written request for an extension by the due date for comments. OSHA will limit any extension to 30 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in CSA's application and other pertinent documents (including exhibits), as well as all submitted comments, contact the Docket Office, Room N-2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2006-0042.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend whether to grant CSA's application for renewal. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7. OSHA will publish a public notice of this final decision in the **Federal Register**.

The Agency processes applications by an NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, App. II.C. In accordance with these procedures, NRTLs submit a renewal request to OSHA, not less than nine months, or no more than one year, before the expiration date of its current recognition. OSHA then publishes a final **Federal Register** notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

CCL initially received OSHA recognition as an NRTL on June 21, 1991 (56 FR 28579). CCL's most recent renewal was on June 10, 2005 for a five-year period expiring on June 10, 2010. CCL submitted a timely request for renewal, dated September 1, 2009 (see Ex. OSHA–2013–0016–0003), and retains its recognition pending OSHA's final decision in this renewal process. The current addresses of the CCL facility recognized by OSHA and included as part of the renewal request is CCL, 1940 West Alexander Street, Salt Lake City, Utah 84119.

II. Notice of Preliminary Findings

OSHA is providing notice that CCL is applying for renewal of its current recognition as a NRTL. This renewal covers CCL's existing NRTL scope of
