14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321-4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves disestablishing one unusable anchorage ground and revising the permit and notification requirements for six deep draft anchorage grounds at Los Angeles and Long Beach Harbors, California. The revised requirements will assist the COTP and the pilot stations for the Ports of Los Angeles and Long Beach in managing anchorages inside the harbor breakwater. This rule is categorically excluded from further review under paragraph 34(f) of Figure 2-1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

I. Background

States are required to submit a progress report in the form of a SIP revision every five years that evaluates progress towards the RPGs for each mandatory Class I Federal area within the state and in each mandatory Class I Federal area outside the state which may be affected by emissions from within the state. See 40 CFR 51.308(g). In addition, the provisions under 40 CFR 51.308(h) require states to submit, at the same time as the 40 CFR 51.308(g) progress report, a determination of the adequacy of the state's existing regional haze SIP. The first progress report SIP is due five years after submittal of the initial regional haze SIP. On September 25, 2008, Delaware DNREC submitted the State's first regional haze SIP in accordance with 40 CFR 51.308(b).¹

On September 24, 2013, DNREC submitted, as a SIP revision (progress report SIP) a report on progress made in

¹ On July 19, 2011, EPA finalized an approval of Delaware's September 25, 2008 regional haze SIP to address the first implementation period for regional haze. See 76 FR 42557.
