b. All construction personnel must attend a mandatory environmental briefing at the start of the work day for work to be performed in pinniped haulout sites, and personnel attendance must be documented.

c. Construction equipment must be inspected before mobilization to ensure no pinnipeds are under or near equipment.

d. If displacement of pinnipeds is conducted, temporary barriers must be used, if necessary, to keep the displaced pinnipeds from re-entering the area during activities.

e. Displacement must be conducted in such a way as to avoid stampedes. Approach of pinnipeds must be conducted gradually.

f. Displacement or flushing of pinnipeds should be avoided, whenever possible, if dependent pups are present.

h. No oil, fuel or chemicals will be allowed to be discharged to waters of the state. Vessels will be equipped with spill kits and cleanup materials, and operators will be trained in responding to an accidental release of oil, fuel, or chemicals. Offloading equipment will be checked for leaks at the start of beach grading and aggregate offloading each day.

i. Measures will be taken to prevent spillage of aggregate during the barge to barge transfer process. Measures may include but are not limited to, the use of a tarp or other barrier between the two barges, to capture spillage.

Numbers of disturbances, by species and age, according to a three-point scale of intensity including (1) Head orientation in response to disturbance, which may include turning head towards the disturbance, craning head and neck while holding the body rigid in a u-shaped position, or changing from a lying to a sitting position and/or slight movement of less than 1 m; "alert"; (2) Movements in response to or away from disturbance, typically over short distances (1–3 m) and including dramatic changes in direction or speed of locomotion for animals already in motion; "movement"; and (3) All flushes to the water as well as lengthier retreats (> 3 m); "flight".

6. Reporting: The holder of this IHA is required to submit a draft monitoring report to NMFS Office of Protected Resources within 90 days after the conclusion of the activities. A final report shall be prepared and submitted within 30 days following resolution of any comments on the draft report from NMFS. DEPARTMENT OF COMMERCE

Patent and Trademark Office

Submission for OMB Review; Comment Request

The United States Patent and Trademark Office (USPTO) will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: United States Patent and Trademark Office (USPTO).

Title: Patent Trial and Appeal Board (PTAB) Actions.

Form Number(s): None.

Agency Approval Number: 0651-0063.

Type of Request: Revision of a currently approved collection.

Burden: 858,683 hours annually.

Number of Respondents: 34,537 responses per year. The USPTO estimates that approximately 8,634 of these responses will be from small entities. The USPTO also estimates that 32,119 responses will be filed electronically.

Avg. Hours per Response: The USPTO estimates that it will take the public approximately 2 to 32 hours to complete the briefs, amendments, requests, and petitions in this collection, depending on the complexity of the request. This includes the time to gather the necessary information, prepare the brief, petition, and other papers, and submit the completed request to the USPTO. The USPTO assumes that, on balance, it takes the same amount of time to gather the necessary information, prepare the brief, petition, and other papers, and submit the completed request to the USPTO, whether the applicant submits it in paper form or electronically.

Needs and Uses: The Patent Trial and Appeal Board (PTAB or Board) is established by statute under 35 U.S.C. § 6. This statute directs that PTAB "shall on written appeal of an applicant, review adverse decisions of examiners upon applications for patent and shall determine priority and patentability of invention in interferences." PTAB has the authority, under pre-AIA sections of the Patent Act, i.e., 35 U.S.C. §§ 134, 135, 306, and 315, to decide ex parte and inter partes appeals and interferences. The membership of the Board is established under 35 U.S.C. § 6. This collection permits applicants to prepare appeal and reply briefs which set forth the claims, issues, and arguments on appeal to the PTAB and permits applicants to file amendments to cancel pending, rejected claims that

they do not wish to be considered on appeal by the Board. Applicants may request that the PTAB reconsider its decision by filing a request for rehearing before the PTAB. Parties may also petition the Chief Administrative Patent Judge on matters pending before the Board. The PTAB uses the information to aid in rendering a decision on the claims, issues, and arguments submitted by the applicant, to determine which claims are on appeal, to decide whether to grant or deny a request for reconsideration of a decision, and to determine whether the necessary information has been provided to grant the petition. There are no forms associated with the items in this collection; however, they are governed by the rules in Part 41 and failure to comply with the appropriate rule may result in the dismissal of the appeal or denial of entry of the paper.

Affected Public: Individuals or households; businesses or other for-profits; non-profit institutions; and the Federal Government.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: Nicholas A. Fraser, email: Nicholas_A_Fraser@omb.eop.gov.

Once submitted, the request will be publicly available in electronic format through the Information Collection Review page at www.reginfo.gov.

Paper copies can be obtained by:

- **Mail:** Susan K. Fawcett, Records Officer, Office of the Chief Information Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450.
