

mines (30 CFR parts 56 and 57); and underground coal and surface work areas of underground coal mines (30 CFR parts 75 and 77).

Title 30 CFR 56/57.19022 and 30 CFR 75/77.1432 requires the diameter of newly installed wire rope to be measured at least once in every third interval of the rope's active length to establish a baseline for subsequent semiannual measurements. A record of the measurements is required to be made and retained until the rope is retired from service.

Title 30 CFR 56/57.19023 and 30 CFR 75/77.1433 require the wire rope to be visually examined at least every fourteen days for visible structural damage, corrosion, and improper lubrication or dressing. If the examination reveals weakening portions of the rope, the weakened portions must be monitored daily for further deterioration until retirement criteria require that the rope be removed from service. The person conducting the examination must certify that the examination was made and the record must be retained for one year.

Title 30 CFR 56/57.19121 requires the person conducting the inspection, test or examination of hoisting equipment certify that these activities have been done. Any unsafe conditions must be noted in a record and dated. All certifications and records must be retained for one year.

Title 30 CFR 75.1400–2 requires a record to be made of tests conducted on safety catches. Safety catches are the last means to safely stop a falling conveyance in the event of rope or equipment failure.

Title 30 CFR 75.1400–4 and 77.1404 require a record to be made of each daily examination. If any unsafe condition is found during the examination, the person conducting the examination must make a record of the condition. All certifications and records must be retained for one year.

Title 30 CFR 77.1906 requires a daily examination of hoists used for shaft sinking. If any unsafe condition is found during the examination, the person conducting the examination must make a record of the condition. All certifications and records must be retained for one year.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Records of Tests and Examinations of Mine Personnel Hoisting Equipment. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of the MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This information collection request is available on <http://www.msha.gov/regs/fedreg/informationcollection/informationcollection.asp>. The information collection request will be available on MSHA's Web site and on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at MSHA, 1100 Wilson Boulevard, Room 2350, Arlington, VA. Sign in at the receptionist's desk on the 21st floor.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Records of Tests and Examinations of Mine Personnel Hoisting Equipment. MSHA has updated the data in respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219–0034.

Affected Public: Business or other for-profit.

Number of Respondents: 250.

Frequency: On occasion.

Number of Responses: 74,715.

Annual Burden Hours: 5,989 hours.

Annual Respondent or Recordkeeper Cost: \$300,000.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: February 21, 2014.

Patricia W. Silvey,
Certifying Officer.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

[OMB Control No. 1219–0048]

Proposed Information Collection; Respirator Program Records

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A). This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Respirator Program Records.

DATES: All comments must be received on or before April 28, 2014.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

• **Federal E-Rulemaking Portal:** <http://www.regulations.gov>. Follow the online instructions for submitting comments for docket number [MSHA–2013–0046].

• **Regular Mail:** Send comments to MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209–3939.

• **Hand Delivery:** MSHA, 1100 Wilson Boulevard, Room 2350, Arlington, VA. Sign in at the receptionist's desk on the 21st floor.

FOR FURTHER INFORMATION CONTACT:

Sheila McConnell, Acting Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); 202-693-9440 (voice); or 202-693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:**I. Background**

Section 101(a), 30 U.S.C. 811(a), allows MSHA to promulgate standards that would require operators to make and retain records from which MSHA would then be allowed to collect information. Section 103(h), 30 U.S.C. 813(h), of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 801 et seq., authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners.

Title 30 CFR 56.5005 and 57.5005 require, whenever respiratory equipment is used, that metal and nonmetal mine operators institute a respirator program governing selection, maintenance, training, fitting, supervision, cleaning, and use of respirators. These standards seek to control miner exposure to harmful airborne contaminants by using engineering controls to prevent contamination and vent or dilute the contaminated air. However, where accepted engineering control measures have not been developed or when necessary by the nature of work involved (for example, while establishing controls or occasional entry into hazardous atmospheres to perform maintenance or investigation), employees may work for reasonable periods of time in concentrations of airborne contaminants exceeding permissible levels if they are protected by appropriate respiratory protective equipment.

Sections 56.5005 and 57.5005 incorporate by reference, requirements of the American National Standards Institute's Practices for Respiratory Protection (ANSI Z88.2-1969). These incorporated requirements mandate that miners who must wear respirators be fit-tested to the respirators that they will use. Certain records are also required to be kept in connection with respirators, including: Written standard operating procedures governing the selection and use of respirators; records of the date of issuance of the respirator; and fit-test results.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Respirator Program

Records. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This information collection request is available on <http://www.msha.gov/regs/fedreg/informationcollection/informationcollection.asp>. The information collection request will be available on MSHA's Web site and on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at MSHA, 1100 Wilson Boulevard, Room 2350, Arlington, VA. Sign in at the receptionist's desk on the 21st floor.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Respirator Program Records. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219-0048.
