[EPA-R10-OAR-2013-0421; FRL-9907-21-Region 10]

Approval and Promulgation of State Implementation Plans: Alaska; Anchorage Carbon Monoxide Limited Maintenance Plan and State Implementation Plan Revisions**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The State of Alaska (the State) submitted two State Implementation Plan (SIP) revisions to the Anchorage Transportation Control Program, Anchorage Carbon Monoxide (CO) Maintenance Plan. On September 20, 2011, the State submitted a SIP revision (2011 Submittal) that updated Anchorage's carbon monoxide (CO) motor vehicle emissions budget in the Anchorage CO maintenance area using the EPA's Motor Vehicle Emission Simulator model. On April 22, 2013, the State submitted a SIP revision (2013 Submittal) to satisfy the Clean Air Act (CAA) section 175A(b) requirement for a second 10-year maintenance plan for the Anchorage CO maintenance area in the form of a limited maintenance plan (LMP). This LMP addresses maintenance of the CO National Ambient Air Quality Standards for a second 10-year period, beyond redesignation of the area to attainment, through 2024. The EPA is proposing to approve both the 2013 Submittal and portions of the 2011 Submittal that are not superseded by the 2013 Submittal. The EPA is proposing to approve these SIP revisions because the State has demonstrated that they are consistent with the CAA.

DATES: Comments must be received on or before April 2, 2014.**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R10-OAR-2013-0421, by any of the following methods:

SUPPLEMENTARY INFORMATION: For further information, please see the direct final action, of the same title, which is located in the Rules section of this **Federal Register**. The EPA is simultaneously approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If the EPA receives no adverse comments, the EPA will not take further action on this proposed rule.

If the EPA receives adverse comments, the EPA will withdraw the direct final rule and it will not take effect. The EPA will address all public comments in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, the EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

SUPPLEMENTARY INFORMATION: The Magnuson-Stevens Fishery

Conservation and Management Act (Magnuson-Stevens Act) requires each regional fishery management council to submit any fishery management plan or amendment to NMFS for review and approval, partial approval, or disapproval. The Magnuson-Stevens Act also requires that NMFS, upon receiving a plan or amendment, publish an announcement in the **Federal Register** notifying the public that the plan or amendment is available for review and comment.

The FMP being revised by Amendment 20A was prepared by the Councils and implemented through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Act.

Actions Contained in Amendment 20A

Currently, no Federal permits are required to sell CMP species, although commercial vessel permits are required to exceed the bag limit for king and Spanish mackerel. All fish harvested in Federal waters that are sold are considered commercial harvest and count towards a species' commercial quota, whether or not the fisherman has a Federal commercial permit. The Councils and NMFS are concerned that landings sold from recreational trips may contribute to the commercial quota and lead to early closures in the commercial sector. Reducing the sale of fish caught under the bag limit should improve the accuracy of data by reducing "double counting", *i.e.*, harvest from a single trip that is counted towards both the commercial quota and recreational allocation. This practice occurs when the same catches are reported through recreational surveys and commercial trip tickets and logbooks.

For the Gulf region, Amendment 20A would prohibit the sale of bag-limit-caught king and Spanish mackerel except in two limited circumstances. First, bag-limit-caught king and Spanish mackerel could be sold when harvested during a for-hire trip on a vessel with both a Gulf Charter/Headboat Coastal Migratory Pelagic Fish Permit and either a King Mackerel Commercial Permit or a Spanish Mackerel Commercial Permit, as appropriate to the species harvested or possessed. Second, king and Spanish mackerel harvested during state-permitted tournaments may be donated to a dealer who has a state or Federal permit and then sold by that dealer, if the proceeds are donated to charity. Dealers receiving such fish must report them as tournament-caught fish. In the Gulf, these sales from dually-permitted vessels or tournaments would only occur in Florida because all other Gulf
