SUPPLEMENTARY INFORMATION:

I. Background

The Wage and Hour Division (WHD) of the Department of Labor (DOL) administers the Migrant and Seasonal Agricultural Worker Protection Act (MSPA), 29 U.S.C. 1801 *et seq.* The MSPA protects migrant and seasonal agricultural workers by establishing employment standards related to wages, housing, transportation, disclosures, and recordkeeping. The MSPA also requires farm labor contractors and farm labor contractor employees to register with the U.S. Department of Labor and to obtain special authorization before housing, transporting, or driving covered workers. The MSPA requires that any person owning or controlling any facility or real property to be used for housing migrant agricultural workers shall not permit such housing to be occupied by any worker unless copy of a certificate of occupancy from the state, local or federal agency that conducted the housing safety and health inspection is posted at the site of the facility or real property. The certificate attests that the facility or real property meets applicable safety and health standards. Form WH-520 is an information gathering form and the certificate of occupancy that the Wage and Hour Division issues when it

is the federal agency conducting the safety and health inspection.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

II. Further Information

On January 10, 2014 (79 FR 1900), the NRC published a request for public comment on draft NSIR/DPR-ISG-02, "Emergency Planning Exemption Requests for Decommissioning Nuclear Power Plants." This document is being developed to assist NRC staff in the review of requests for exemptions from specific emergency preparedness regulations and license amendments for defueled station emergency plans submitted by nuclear power plant licensees after permanent cessation of plant operations.

The public comment period was originally scheduled to close on March 11, 2014. By letter dated February 20, 2014, the Nuclear Energy Institute requested a 30-day extension to the public comment period. Additional time was requested in order to incorporate comments that might result from the NRC's public meeting scheduled for March 6, 2014, concerning NSIR/DPR-ISG-02. The NRC has decided to extend the public comment period on this document to allow more time for members of the public to use information from the March 6, 2014, public meeting to develop their comments. The deadline for submitting comments will be extended to April 10, 2014.
